In the Matter of Henry Modell, Rose Modell, and William Modell, Individually and as Copartners, Trading and Doing Business as Henry Modell and Company, and Modell's

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer thereto filed by respondents, testimony, and other evidence introduced before a trial examiner of the Commission theretofore duly designated by it, recommended decision of the trial examiner, and exceptions thereto, briefs in support of and in opposition to the allegations of the complaint, and oral arguments of counsel; and the Commission having made its findings as to the facts and its conclusion that said respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondents Henry Modell, Rose Modell, and William Modell, individually and as co-partners, trading under the names Henry Modell and Company, and Modell's, or trading under any other name, and their representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of respondents' merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from directly or indirectly:

(1) Representing through use of the term "Government Issue" or "G. I." or in any other manner that merchandise which has not been procured from a branch of the United States Government is Government issue; or representing through use of the term "Regulation" or "U. S. Regulation" or by any other means that merchandise which has not been procured from a branch of the United States Government is regulation or standard service merchandise unless the article so designated conforms to all specifications of the branch of the service for which such merchandise was produced.

(2) Using the word "Army" or "Navy" or the name of any other branch of the armed services either alone or in connection with the term "U. S." to designate or to refer to merchandise which has not been procured from a branch of the United States Government unless such merchandise has been produced for the service branch designated and unless the character of the merchandise, including the facts as to whether such articles constitute seconds, defective merchandise which has been rejected due to departures from contract specifications, manufacturers' excess stocks, or merchandise not accepted for other reasons by the branch of the service referred to, when such is the case, is conspicuously disclosed in immediate conjunction therewith.

It is further ordered, That the respondents shall within sixty (60) days after service upon them of this order file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: October 2, 1950.

POWERS AND DUTIES OF DELEGATE AGENCIES AND THE RECONSTRUCTION FINANCE CORPORATION

§ 601.10 *Delegate agencies.* The delegate agencies are hereby authorized and directed to determine within the limitations of §§ 601.15 to 601.23 the terms and conditions upon which a loan may be made.

§ 601.11 *The Reconstruction Finance Corporation.* The Reconstruction Finance Corporation is hereby authorized and directed upon the receipt of a certificate or certificates from any delegate agency and upon the allocation of the necessary funds to make a loan or loans to a borrower upon the terms and conditions set forth in such certificate or certificates.

TERMS AND CONDITIONS OF LOANS

§ 601.15 *Term of loan.* The term of a loan shall be for such period as the delegate agency having the certifying authority for such loan may determine but shall in no event exceed a period of twenty years from the date of the loan unless a longer period is authorized by the Chairman of the National Security Resources Board.

§ 601.16 *Amount of loan.* A loan shall be made for such amount as the delegate agency having the certifying authority for such loan may determine: *Provided, however,* That a certificate for a loan may be issued by a delegate agency only to the extent that the financial assistance to be extended to the borrower is not otherwise available to the borrower on reasonable terms from private financial institutions or Government agencies.

§ 601.17 *Interest rates.* The rate of interest to be paid by the borrower for any loan shall be the same as that charged at the time of making the loan by the Reconstruction Finance Corporation for loans made pursuant to the Reconstruction Finance Corporation Act: *Provided, however,* That a different rate may be authorized by the Chairman of the National Security Resources Board.

§ 601.18 *Repayment.* The time or times for and the method or methods of repayment by the borrower of a loan shall be determined by the delegate agency having certifying authority for the loan.

§ 601.19 *Security.* (a) Loans shall be secured by sufficient collateral: *Provided, however,* That in any case where the collateral is insufficient if the managerial ability of the borrower, the potentiality of the profits of the enterprise and other relevant factors bearing on the ability of the borrower to repay shall reasonably assure the repayment of the loan, the loan may be made on a partially secured or wholly unsecured basis.

(b) In order to secure the repayment of a loan the delegate agency having certifying authority for the loan may require the guarantee of the loan by a person, firm or corporation other than the borrower and may require the borrower to assign all of his right, title, and interest in and to all payments accrued and to accrue to the borrower on contracts with the United States Government or with any agency or instrumentality thereof.

(c) The delegate agency having certifying authority for the loan may require as a condition precedent to the loan that existing creditors of the borrower and secondary obligors on the claims of said creditors shall execute a standby agreement (1) to subordinate their claims and the liens held by them in whole or in part to the mortgage, lien, pledge, transfer, assignment or delivery made to the Reconstruction Finance Corporation as security for the loan; or (2) to take no action to assert, collect or enforce all or any part of their claims, except such amounts as the standby creditor is permitted to receive or retain pursuant to the certificate; or (3) to take no action to realize upon any collateral for their claims, except collateral specified in, and permitted to be realized upon by the certificates. In the event any agency of the Government is a prior creditor of the borrower, no standby agreement effective against such agency may be required until after consultation between such agency and the delegate agency having certifying authority for the loan.

§ 601.20 *Participation and guarantee.* (a) In the case of a participation in a loan made by a bank or other financial institution, the participation may be on either an immediate or deferred basis.

(b) In the case of a deferred participation the fee to be paid by the participating bank or other financial institution to the Reconstruction Finance Corporation until the agreed participation has been purchased by the Reconstruction Finance Corporation shall be the same as that charged at the time of making the loan by the Reconstruction Finance Corporation for deferred participations in loans made pursuant to the Reconstruction Finance Corporation Act: *Provided,* That a different fee may be

authorized by the Chairman of the National Security Resources Board.

(c) In all cases of participation, (1) the participating bank or other financial institution shall not directly or indirectly charge or receive any bonus, fee, commission or expense in any form in connection with the making of the loan except charges and expenses for actual services; (2) any and all security or guarantee of any nature which the participating bank or other financial institution shall hold or receive to secure the participating bank or other financial institution and the Reconstruction Finance Corporation shall secure the interests of both the participating bank or other financial institution and the Reconstruction Finance Corporation in the loan; (3) neither the participating bank or other financial institution nor the Reconstruction Finance Corporation will assign, in whole or in part, its interest in the loan without prior written consent of the other party.

§ 601.21 *Books, records, and reports.* The borrower shall (a) keep proper books of account in a manner satisfactory to the Reconstruction Finance Corporation; (b) authorize the Reconstruction Finance Corporation to make or cause to be made inspections and audits of any books, records, and papers in the custody of the borrower or others relating to its financial or business condition, or of any of its assets; (c) furnish upon request to the Reconstruction Finance Corporation reports of the borrower's financial condition and operations and schedules of compensation being paid by it; and (d) authorize all constituted Federal, State, and municipal authorities (1) to furnish reports of examinations, records, and other information relating to the condition and affairs of borrower and (2) to permit representatives of the delegate agencies and the Reconstruction Finance Corporation to have full access to, and make copies of and extracts from, any and all reports and returns by or with respect to borrower, and all reports of examiners or other information concerning borrower contained in their files and records.

§ 601.22 *Distribution and compensation.* (a) A borrower, if a corporation, joint stock company, or a Massachusetts trust, shall not, without the prior written consent of the Reconstruction Finance Corporation, declare or pay any dividend or make any distribution upon its capital stock, or purchase or retire any of its capital stock, or consolidate or merge with any other company, or make any advance, directly or indirectly, by way of loan, gift, bonus, commission, or otherwise, to any company directly or indirectly controlling or affiliated with or controlled by the borrower, or to any officer, director or employee of the borrower, or of any such company.

(b) A borrower, if a partnership or individual, shall not, without the prior written consent of the Reconstruction Finance Corporation, make any distribution of assets of the business other than reasonable compensation for services, or make any advance, directly or indirectly, by way of loan, gift, bonus, commission, or otherwise, to any partner or any of its employees, or to any company directly or indirectly controlling or affiliated with or controlled by the borrower.

(c) A borrower shall not pay directly or indirectly to any officer, employee or person, except employees customarily paid on an hourly basis, any compensation in excess of the amount authorized by the Reconstruction Finance Corporation and shall not, without the prior written consent of the Reconstruction Finance Corporation, increase the compensation of any officer, employee or person or elect, appoint, engage or otherwise employ any person, except employees who are customarily paid on an hourly basis, at a compensation at a rate in excess of $10,000.00 per annum.

§ 601.23 *Fees and commissions.* A borrower shall not, directly or indirectly, pay or agree to pay, or procure any person to pay or agree to pay (a) any bonus, fee, or commission in any form in connection with the application for or the obtaining of a loan; or (b) any charge or expense, in any form, in connection with such application or loan, for the services of appraisers, accountants, attorneys, or other persons whomsoever, whether for evidencing matters required to be presented with reference to said application or for services in any manner connected with such application, except as permitted by the Reconstruction Finance Corporation.

W. STUART SYMINGTON,
Chairman, National Security Resources Board.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 903]

[Docket No. AO 10-A 14]

HANDLING OF MILK IN ST. LOUIS, MISSOURI, MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVELY APPROVED MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR, Part 900), notice is hereby given of a public hearing to be held at the Chase Hotel, St. Louis, Missouri, beginning at 10:00 a. m., c. s. t., November 27, 1950, for the purpose of receiving evidence with respect to emergency and other economic conditions which relate to the handling of milk in the St. Louis, Missouri, marketing area and to the proposed amendments to the tentatively approved marketing agreement and to the Order, as amended, regulating the handling of milk in the said marketing area (7 CFR, 903.0 et seq.) set forth herein below, or any modifications thereof. Notice is further given that the following proposed amendments to the Order, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area will affect the level of Class I prices as recommended to the Secretary by the Assistant Administrator, Production and Marketing Administration, in his recommended decision for the Suburban St. Louis, Missouri, marketing area issued the 27th day of October, 1950, published in the FEDERAL REGISTER (15 F. R. 7317). The amendments proposed have not received the approval of the Secretary of Agriculture.

The following amendment has been proposed by Sanitary Milk Producers:

1. Amend § 903.5 (b) (1) to read as follows:

(1) *Class I milk.* The price for Class I milk shall be the basic formula price plus the following amounts per hundredweight: $1.35 for the delivery periods of July through December; $1.10 for the delivery periods of January through March; and $0.90 for the delivery periods of April through June: *Provided*, That if during the 12 months prior to the month immediately preceding each of the following delivery period groups, the total volume of milk received from producers by all handlers was more or less than 115 percent of the total Class I milk disposed of by all handlers during such 12-month period the following adjustments shall be made to the price for Class I milk for the respective group of delivery periods:

Delivery period group	For each percentage point that receipts from producers as a percent of Class I milk are—	
	Below 115 percent (add)	Above 115 percent (subtract)
	Cents	Cents
January through March	1	2
April through June	0	2
July through December	2	2

Provided, however, That in determining whether the total volume of milk received from producers by all handlers was more or less than 115 percent of the

total Class I milk, the receipts from producers by a plant who was not a handler during the last month of said 12-month period shall be disregarded.

By the Dairy Branch, Production and Marketing Administration:

2. Make such other changes as may be required to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and of the order, as amended, now in effect, may be procured from the Market Administrator, 4030 Chouteau Avenue, St. Louis, Missouri, or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

[Docket No. AO-72-A 15 RO 1]

HANDLING OF MILK IN THE TOLEDO, OHIO MARKETING AREA

NOTICE OF REOPENING OF PUBLIC HEARING AND NOTICE OF HEARING ON PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended 7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the reopening of the public hearing held in Toledo, Ohio, June 1, 1950, and of a hearing to be held in the Tower Room, Hillcrest Hotel, Madison and 16th, Toledo, Ohio, beginning at 10:00 a. m., e. s. t., November 30, 1950, for the purpose of receiving evidence with respect to a proposed amendment hereinafter set forth, or appropriate modifications thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Toledo, Ohio, marketing area.

The purpose of the reopened hearing is to afford interested persons the further opportunity to introduce additional evidence with respect to proposals to enlarge the marketing area and to add certain provisions with respect to milk subject to regulation of another Federal order. These proposed amendments have not received the approval of the Secretary of Agriculture.

Amendment proposed by The Northwestern Cooperative Sales Association:

Delete § 930.5 (a) (1) and (2) and substitute therefor the following:

(1) *Class I milk prices.* To the basic formula price add the following amounts for the delivery period indicated:

Delivery period:	Amount
May and June	$0.75
March, April, July and August	1.00
All others	1.20

(2) *Class II milk prices.* To the basic formula price add the following amounts for the delivery period indicated:

Delivery period:	Amount
May and June	$0.45
March, April, July and August	.70
All others	.90

Provided, That when the total deliveries of producer milk exceed 135 percent of gross Class I utilization for the period May 1, 1950 to April 30, 1951, inclusive, or for any succeeding similar period each year thereafter that the Class I and Class II differentials revert to those in subparagraph (3) of this paragraph: *And provided further,* That whenever the schedule in subparagraph (3) of this subparagraph prevails and the total deliveries of producer milk fall below 125 percent of gross Class I utilization for two successive months that the schedule in subparagraphs (1) and (2) of this paragraph shall prevail.

(3) (i) *Delivery period.*

	Amount
May and June	$0.75
March, April, July and August	.95
All others	1.05

(ii) *Delivery period.*

	Amount
May and June	$0.45
March, April, July and August	.65
All others	.75

Copies of this notice of hearing, the said order, as amended, and the said marketing agreement may be procured from the Market Administrator, Room 19, Old Federal Building, Toledo, Ohio, or from the Hearing Clerk, Room 1353, South Agricultural Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: November 17, 1950, at Washington, D. C.

DEPARTMENT OF LABOR

Division of Public Contracts

[41 CFR, Part 202]

PREVAILING MINIMUM WAGE FOR MEN'S NECKWEAR INDUSTRY

NOTICE OF HEARING ON PROPOSED AMENDMENT

The Secretary of Labor, in an amended minimum wage determination issued pursuant to the provisions of the Walsh-Healey Public Contracts Act (act of June 30, 1936, 49 Stat. 2036, 41 U. S. C. secs. 35-45) and effective January 25, 1950 (15 F. R. 382), determined that the minimum wage for persons employed in the performance of contracts with agencies of the United States Government subject to the act for the manufacture or furnishing of the products of the men's neckwear industry shall be not less than 75 cents an hour. This amended determination was based upon information indicating that substantially all employees in the men's neckwear industry are engaged in commerce or in the production of goods for commerce, as defined in the Fair Labor Standards Act, and that as a consequence the Fair Labor Standards Amendments of 1949 require payment of a wage rate of not less than 75 cents an hour to substantially all employees in the industry. This amended determination also provided that learners, apprentices and handicapped workers might be employed at subminimum rates in accordance with regulations of the Administrator of the Wage and Hour Division of the Department of Labor under section 14 of the Fair Labor Standards Act (29 CFR Parts 522, 521, 524, and 525 respectively).

A wage survey of selected men's neckwear manufacturing establishments made as of March 1950 by the Bureau of Labor Statistics indicates that the 75-cent rate now in effect may not reflect the prevailing minimum wages in the industry; and it is proposed, therefore, to hold a hearing for the purpose of consideration by the Secretary of Labor of an amendment of the current determination.

The men's neckwear industry is defined in the current determination as that industry which manufactures or furnishes men's neckwear (exclusive of knitted neckwear) or women's ties of design and construction similar to such men's neckwear.

Now, therefore, notice is hereby given that a public hearing will be held on December 19, 1950 at 10:00 a. m., in Room 1214 of the Department of Labor, Constitution Avenue and 14th Street, Northwest, Washington, D. C., before the Administrator of the Wage and Hour and Public Contracts Divisions or a representative designated to preside in his place, at which hearing all interested persons may appear and submit data, views and argument (1) as to what are the prevailing minimum wages in the men's neckwear industry; (2) as to whether there should be included in any amended determination for this industry provision for employment of learners and/or apprentices at subminimum rates, and if so, in what occupations, at what subminimum rates, and with what limitations, if any, as to length of period and number or proportion of such subminimum rate employees; and (3) as to the propriety of the present definition of the industry.

Persons intending to appear are requested to notify the Administrator of their intention in advance of the hearing. Written statements in lieu of personal appearance may be filed by mail at any time prior to the date of the hearing, or may be filed with the presiding officer at the hearing. An original and four copies of any such statement should be filed.

Tabulations of wage data prepared by the Bureau of Labor Statistics at the request of the Wage and Hour and Public Contracts Divisions will be made available to interested persons upon request to the Wage and Hour and Public Contracts Divisions, United States Depart-

ment of Labor, Washington, D. C. Interested persons are invited to submit wage data, including data as to changes which have taken place in the wage structure of the industry since the time of the survey.

In the discretion of the Presiding Officer, a period, of not to exceed 30 days from the close of the hearing may be allowed for the filing of comment on the evidence and statements introduced into the record of the hearing. In the event such supplemental statements are received an original and four copies of each such statement should be filed.

Signed at Washington, D. C. this 16th day of November 1950.

F. GRANVILLE GRIMES, Jr.,
Acting Administrator.

PREVAILING MINIMUM WAGE FOR SCIENTIFIC, INDUSTRIAL AND LABORATORY INSTRUMENTS INDUSTRY

NOTICE OF HEARING ON PROPOSED AMENDMENT

The Secretary of Labor, in an amended minimum wage determination issued pursuant to the provisions of the Walsh-Healey Public Contracts Act (act of June 30, 1938, 49 Stat. 2036, 41 U. S. C. secs. 35-45) and effective January 25, 1950 (15 F. R. 382), determined that the minimum wage for persons employed in the performance of contracts with agencies of the United States Government subject to the act for the manufacture or furnishing of the products of the scientific, industrial and laboratory instruments industry shall be not less than 75 cents an hour. This amended determination was based upon information indicating that substantially all employees in the scientific, industrial and laboratory instruments industry are engaged in commerce or in the production of goods for commerce, as defined in the Fair Labor Standards Act, and that as a consequence the Fair Labor Standards Amendments of 1949 require payment of a wage rate of not less than 75 cents an hour to substantially all employees in the industry. This amended determination also provided that learners, apprentices and handicapped workers might be employed at subminimum rates in accordance with regulations of the Administrator of the Wage and Hour Division of the Department of Labor under section 14 of the Fair Labor Standards Act (29 CFR Parts 522, 521, 524 and 525 respectively).

A wage survey of selected scientific, industrial and laboratory instruments manufacturing establishments made as of May 1950 by the Scientific Apparatus Makers of America indicates that the 75-cent rate now in effect may not reflect the prevailing minimum wages in the industry; and it is proposed, therefore, to hold a hearing for the purpose of consideration by the Secretary of Labor of an amendment of the current determination.

The scientific, industrial and laboratory instruments industry is defined in the current determination as that industry which manufactures or furnishes any of the following products:

(1) Instruments and apparatus of the type used in navigation, surveying, engineering, drafting, target detection, fire control, meteorology, and in laboratories for physical, chemical, clinical, biological, bacteriological, geological, physiological, and psychological teaching, demonstration, research and testing;

(2) Instruments and apparatus for indicating, measuring, recording or controlling the following: Quantity, quality, temperature, combustion, pressure, flow, density, intensity, humidity, conductivity, position, altitude, level, attitude, angle, direction, distance, speed, and acceleration;

(3) Electrically-actuated instruments used to measure physical quantities; and

(4) Optical glass; but not including: Instruments and apparatus for measuring or controlling flow or consumption of water, gas or gasoline, used in the services rendered by public utilities and service stations indicating consumer consumption; instruments and apparatus used on automobiles; clocks and watches; and machinists' gauges.

Now, therefore, notice is hereby given that a public hearing will be held on December 15, 1950, at 10:00 a. m., in Room 1214 of the Department of Labor, Constitution Avenue and 14th Street, Northwest, Washington, D. C., before the Administrator of the Wage and Hour and Public Contracts Divisions or a representative designated to preside in his place, at which hearing all interested persons may appear and submit data, views and argument (1) as to what are the prevailing minimum wages in the scientific, industrial and laboratory instruments industry; (2) as to whether there should be included in any amended determination for this industry provision for employment of learners and/or apprentices at subminimum rates, and if so, in what occupations, at what subminimum rates, and with what limitations, if any, as to length of period and number or proportion of such subminimum rate employees; and (3) as to whether the definition of the industry should be amended to read as follows:

The scientific, industrial and laboratory instruments industry is defined as that industry which manufactures or furnishes any of the following products:

(1) Instruments and associated apparatus of the types generally used for indicating, recording or initiating control of physical and/or chemical qualities and/or quantities such as the following:

Temperature.	Direction.
Combustion.	Distance.
Pressure.	Speed.
Flow.	Acceleration.
Density.	Sight.
Intensity.	Electricity.
Humidity.	Position.
Conductivity (electrolytic).	Altitude.
Attitude.	Liquid level.
Angle.	Light, and sound.

including, but not by way of limitation, instruments and associated apparatus of the types generally used for indicating, recording or initiating control in the following:

Industrial processing.	Drafting.
Navigation.	Target detection.
Surveying.	Fire control.
Engineering.	Meteorology.

(2) Instruments and associated apparatus of the types generally used in teaching, demonstration, research or testing laboratories for the indicating, recording or initiation of control of physical, chemical, clinical, biological, bacteriological, geological, physiological, and psychological qualities or quantities.

Expressly excluded from the scope of the definition of the industry are the following:

(1) Instruments and associated apparatus of the type generally used in the services rendered by public utilities and service stations for measuring or controlling flow or consumption of water, gas or gasoline;

(2) Instruments and associated apparatus of the type generally used as a component part of automobiles;

(3) Clocks and watches;

(4) Machinists' gauges;

(5) Control equipment of the type generally used in domestic installations of air conditioning, refrigeration, comfort heating, cooking and water heating equipment;

(6) Speed and emergency governors of the type generally used with steam, gas, and hydraulic turbines and diesel engines;

(7) Ophthalmic lenses, trial sets, and other ophthalmic products, except ophthalmic instruments;

(8) Transmitting and receiving equipment for telephony, carrier equipment, radio, sonar, television, and radar;

(9) Photographic lenses;

(10) Optical glass; and

(11) Laboratory glassware and other technical, scientific and industrial pressed and blown glassware.

Persons intending to appear are requested to notify the Administrator of their intention in advance of the hearing. Written statements in lieu of personal appearance may be filed by mail at any time prior to the date of the hearing, or may be filed with the presiding officer at the hearing. An original and four copies of any such statement should be filed.

Tabulations of wage data prepared at the request of the Wage and Hour and Public Contracts Divisions will be made available to interested persons upon request to the Wage and Hour and Public Contracts Divisions, United States Department of Labor, Washington, D. C. Interested persons are invited to submit wage data, including data as to changes which have taken place in the wage structure of this industry since the time of the survey.

In the discretion of the Presiding Officer, a period of not to exceed 30 days from the close of the hearing may be allowed for the filing of comment on the evidence and statements introduced into the record of the hearing. In the event such supplemental statements are

received an original and four copies of each such statement should be filed.

Signed at Washington, D. C., this 16th day of November 1950.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Parts 7, 8]

[Docket No. 9797]

COASTAL AND MARINE RELAY SERVICES, AND SHIP SERVICES

FURTHER NOTICE OF PROPOSED RULE MAKING

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. On September 13, 1950, the Commission adopted a notice of proposed rule making with respect to the revision of Parts 7 and 8 of the Commission's rules as set forth below. This notice of proposed rule making appeared in the September 22, 1950, issue of the FEDERAL REGISTER. Since the adoption of the said notice, it became apparent that the above-referred to revisions should be amended by adding thereto additional proposed rules, and by correcting both latent and patent errors and inconsistencies therein. In addition, it appears desirable to delete from Part 7 of the rules, provisions relating to procedures for filing applications for authority under section 214 of the Communications Act of 1934, as amended, to discontinue, reduce or impair service provided by public coast stations. Proposed amendments to Part 63 of the Commission's rules, "Extension of Lines and Discontinuance of Service by Carriers," are set forth in a separate notice of proposed rule making, Docket No. 9828 embodying provisions covering applications for authority to discontinue, reduce or impair service provided by public coast stations. Accordingly there is attached hereto an appendix setting forth additions to the proposed revision of Parts 7 and 8 and corrections to the said revision.

3. The proposed additional rules are issued under authority of Titles II and III of the Communications Act of 1934, as amended, and pursuant to the Radio Regulations in effect annexed to the International Telecommunication Convention (Atlantic City, 1947) and the International Convention for the Safety of Life at Sea (London, 1929).

4. Due to the addition of the proposed additional rules and the corrections to the proposed revision of the said Parts 7 and 8, which interested parties must necessarily consider with respect to comments on the said revision of Parts 7 and 8, the period of time within which interested parties may file with the Commission written statements or briefs setting forth their comments is extended from November 15, 1950, to December 15, 1950. Statements or briefs in reply to the original statements or briefs may be filed on or before January 2, 1951.

5. In accordance with the provisions of § 1.764 of the Commission's rules, an original and fourteen copies of all statements, briefs, or comments filed shall be furnished the Commission.

Released: November 16, 1950.

Adopted: November 13, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

PART 7—STATIONS ON LAND IN THE MARITIME SERVICES

1. a. In § 7.2 paragraph (m), substitute "transmitter-power" in place of "transmission-power."

b. Add a new paragraph (r) to read:

(r) *Installed.* As used in this part with respect to the requirements of radio apparatus in stations on land subject to this part, the term "installed" means installed in the particular station to which the pertinent rule or regulation involving the use of this term is applied.

2. a. In § 7.3, amend footnote 4 (in reference to paragraphs (b) and (e)) to read:

⁴ Aircraft stations, when transmitting on frequencies allocated to the maritime mobile service, may communicate in this service with ship stations and coast stations. In general, the frequencies assignable for this purpose to aircraft stations licensed by the Commission are the same as those below 100 Mc assignable to ship stations.

b. Delete existing paragraph (l).

c. Add the following three new paragraphs:

(l) *Marine-utility coast station.* A coast station, readily portable for use as a limited coast station at unspecified points ashore within a designated local area.

(m) *Marine-utility ship station.* A ship station, readily portable for use as a limited ship station on mobile vessels within a designated local area.

(n) *Marine-utility station.* A coast or ship station in the maritime mobile service having a frequency assignment which is available for both marine-utility coast stations and marine-utility ship stations and licensed under one station authorization to operate as either a marine-utility coast station or a marine-utility ship station according to its location, pursuant to the provisions of paragraphs (l) and (m) of this section, at the time it is being operated.

3. In § 7.4, amend paragraph (a) to read:

§ 7.4 *Maritime Radiolocation Service*—(a) *Radiolocation.* Determination of a position or of a direction by means of the constant velocity or rectilinear propagation properties of Hertzian waves.

4. In § 7.5, amend paragraph (c) to read:

(c) *Operational fixed station.* A fixed station, not open to public correspondence, operated by and for the sole use of those agencies operating their own radiocommunication facilities in the Public Safety, Industrial, Land Transportation, Marine, or Aviation Services.

5. a. In § 7.8, amend paragraph (q) to read:

(q) *Emission-bandwidth.* The band of frequencies comprising 99 percent of the total radiated power extended to include any discrete frequency on which the power is at least 0.25 percent of the total radiated power.[4]

b. In paragraph (w), substitute "modulating" in place of "modulated."

6. In § 7.37 cross reference the following footnote with the title of this section:

[4] See § 7.46 (b).

7. a. In § 7.41 substitute the following title for the present title: § 7.41 *Application for special temporary authority for installation and operation of transmitting apparatus.*

b. Delete paragraph (c) of this section.

c. Delete the parenthetical phrase "(except as otherwise provided in paragraph (c) of this section)" in the present paragraphs (d) and (e) and redesignate these paragraphs as (c) and (d) respectively.

d. Redesignate paragraph (f) as paragraph (e) and change reference therein now reading "paragraph (d)" to read "paragraph (c)".

8. a. In § 7.46 substitute the following title and text for this section:

§ 7.46 *Applications for authority to discontinue, reduce or impair service provided by a public coast station.* (a) Procedures relating to applications under section 214 of the Communications Act for authority to discontinue, reduce or impair service provided by a public coast station are set out in Part 63 of the Commission's rules.

(b) Licensees of public coast stations who propose to discontinue service at the end of any license period shall file an appropriate application for discontinuance of service, as provided in Part 63 of the Commission's rules. Any licensee of a public coast station who has filed, or who proposes to file, an application for authority to discontinue service provided by such station shall, during the period that such application is pending before the Commission, continue to file appropriate applications as may be necessary for extension or renewal of station license in order to provide legal authorization for such station to continue in operation pending final action on the application for discontinuance of service.

b. Delete the footnote relating to this section.

8. Add new § 7.47 to read:

§ 7.47 *Request for amendment or waiver of rules.* (a) Any provisions of the rules in this part (except those provisions which set forth specific requirements, not subject to waiver or change, of any applicable statute, or any applicable international agreement to which the United States is a signatory party) may be repealed, amended or supplemented, subject to the provisions of the Administrative Procedures Act. Any in-

terested person may petition for issuance, amendment, or repeal of any rule or regulation governing stations in the maritime mobile service, maritime radiolocation service, or fixed service subject to this part. Such petition may be filed in relation to specific applications for station authorization, or independently thereof, and shall show the text of the proposed rule(s), and shall set forth the reason(s) in support of the petition.

(b) Any provision of the rules in this part (except those provisions which set forth specific requirements, not subject to waiver or change, of any applicable statute, or any applicable international agreement to which the United States is a signatory party) may be waived by the Commission, if the Commission finds that important or exceptional circumstances require such waiver and that the public interest will be served thereby. A request for such waiver may be filed in relation to specific applications for station authorization, or independently thereof, and shall set forth in detail the reason(s) said waiver is considered to be necessary, and how the public interest would be served thereby.

9. a. In § 7.74 substitute the following title for the present title: "§ 7.74 *Notice of involuntary discontinuance, reduction or impairment of service.*"

b. Substitute the following text for the present text of paragraphs (a) and (b):

(a) If, for any reason beyond the control of the station licensee, the service provided by a public coast station is discontinued, reduced or impaired, the station licensee shall immediately notify the Commission at Washington 25, D. C., and the Commission's Engineer in Charge of the radio district in which the station is located. In such cases, the licensee shall furnish full particulars as to the reasons for such discontinuance, reduction or impairment of service including a statement as to when normal service is expected to be resumed. In the event such changes in station operation include discontinuance, reduction or suspension of a watch normally kept on 500 kc or 2182 kc, immediate notification thereof shall be given by the station licensee to the nearest district office of the U. S. Coast Guard and to the Commission's Engineer in Charge of the radio district in which the station is located, together with notification of the estimated or known time of resumption of such watch. When normal service is resumed, immediate notification thereof shall be given to the Commission at Washington 25, D. C., and to the Commission's Engineer in Charge of the radio district in which the station is located. When the watch to which reference is made herein is resumed, immediate notification thereof shall be given to the Coast Guard and to the Commission's Engineer in Charge.

(b) Notification need not be given with respect to involuntary reduction or suspension of the normal service of a limited coast station (provided a watch normally kept by such station on 500 kc or 2182 kc is not reduced or suspended thereby) or any other station subject to this part, except public coast stations as provided in paragraph (a) of this section, during any period of involuntary reduction or suspension not exceeding 10 days. Whenever the period of such involuntary reduction or suspension exceeds 10 days, notification thereof shall be given, except by marine-utility stations, to the Commission's Engineer in Charge of the radio district in which the station is located, together with notification of the known or estimated time of resumption of normal operation. In the event any reduction or suspension of the service of a limited coast station causes a reduction or suspension of a watch normally kept on 500 kc or 2182 kc, immediate notification thereof shall be given by the station licensee to the nearest district office of the U. S. Coast Guard and to the Commission's Engineer in Charge of the radio district in which the station is located, together with notification of the estimated or known time of resumption of such watch.

10. a. In § 7.75 substitute the following title for the present title: "§ 7.75 *Notice of voluntary discontinuance, reduction or impairment of service.*"

b. Delete the present paragraph (a) of this section.

c. Delete the designator of paragraph (b) and substitute the following text for the first sentence of this paragraph, leaving the remainder unchanged: "When the service of any station subject to this part (other than a marine-utility station) is discontinued, reduced or impaired for any reason within the control of the station licensee, immediate notification thereof shall be given to the Commission's Engineer in Charge of the radio district in which the station is located, together, in the case of suspension, with a statement of the estimated or known time of resumption of normal service."

11. Add a new § 7.76, with title and text as follows:

§ 7.76 *Cancellation of license.*[2] In all cases of permanent discontinuance of operation of stations subject to this part, the licensee shall immediately forward the station license to the Washington, D. C., office of the Commission for cancellation.

12. Amend § 7.101 to read:

§ 7.101 *Inspection of stations.* Pursuant to section 303 (n) of the Communications Act, all stations subject to this part and all station records required by this part shall be available for inspection by authorized representatives of the Commission at such times and intervals which, within the discretion of the Commission, are considered reasonable and necessary to assure compliance with applicable rules, regulations, laws, treaties, and international agreements.

13. In § 7.104, amend paragraph (a), subparagraph (3), to read:

(3) Stations having a frequency assignment above 4000 kc shall:

(i) Be equipped to receive efficiently on each assigned frequency, designated for radiotelegraphy in this part and in Part 8 of the Commission's rules, which is in the same characteristic portion of the spectrum as is each frequency assignment above 4000 kc of the particular coast station.

14. Amend § 7.108 to read:

§ 7.108 *Adjustment of equipment.* The transmitting equipment of each station subject to this part shall be operated, tuned, and adjusted so that there will be no radiation of emissions outside the authorized frequency band that interferes or is capable of interfering with the service of any other station. Any spurious emissions, including radio frequency harmonics and audio frequency harmonics, shall be maintained at the lowest practicable level.

15. In § 7.110, amend paragraph (a) to read:

§ 7.110 *Measurement of transmitter-power.* (a) The actual power of each radio transmitter of a coast or fixed station, subject to this part, shall be maintained within the following tolerance of the specific power authorized for that transmitter by the Commission:

(1) When the maximum authorized transmitter-power only is indicated, the actual power shall, in so far as is practicable, not be more than that necessary to carry on the service for which the station is licensed and in no event more that 5 percent above the maximum authorized transmitter-power;

(2) When the exact authorized transmitter-power is indicated, the actual power shall, at all times, be within the limits of 105 percent and 90 percent of the authorized power.

16. In § 7.115, amend paragraph (b) to read:

(b) Station logs shall be made available to an authorized representative of the Commission upon request.

17. In § 7.131, amend paragraphs (b) and (c) to read:

(b) Authorized frequency tolerances for coast stations operating on frequencies below 515 kc or within the frequency-band 1,600 kc to 25,000 kc:

Frequency ranges	Applicable until Jan. 1, 1953, to transmitters installed before Jan. 1, 1950	Applicable to transmitters installed after Jan. 1, 1950, and to all transmitters after Jan. 1, 1953
	Percent	*Percent*
(1) From 14 to 515 kc	0.1	0.01
(2) From 1600 to 25000 kc	.02	.005

(c) Authorized frequency tolerances for coast stations operating on frequencies above 30 Mc and for marine-utility stations:

	Percent
(1) From 30 to 50 Mc:	
For stations licensed to operate with a plate input power not in excess of 3 watts	0.02
For all other stations	.01

[1] For rules covering the filing of applications for authority under section 214 of the Communications Act, see Part 63 of the Commission's rules.

[2] See § 7.46.

[3] See § 61.57 of the Commission's rules for procedure in cancelling applicable tariffs.

(2) From 100 to 200 Mc:	Percent
For stations licensed to operate with a plate input power not in excess of 3 watts	0.01
For all other stations	.005

18. In § 7.133, amend paragraph (c), subparagraphs (1) and (2), to read:

(1) The authorized emission-bandwidths for the classes of emission authorized in § 7.132 shall be as follows:

Class of emission	Emission designator	Emission-bandwidth authorized for transmission of intelligence [1]
A0	None	None.
A1	0.16 A1	160 cycles per second.
A2	2.7 A2	2700 cycles per second.
A2a	1.41 A2a	1410 cycles per second.
A2b	2.7 A2b	2700 cycles per second.
A3	6 A3	8000 cycles per second.
A3a	3 A3a	4000 cycles per second.
A3b	6 A3b	8000 cycles per second.
FO	None	None.
F1 (For 35 Mc to 76 Mc)	Variable [2]	40000 cycles per second.
F1 (For 156.25 Mc to 162.05 Mc)	Variable [2]	40000 cycles per second.
F2 (For 35 Mc to 76 Mc)	36 F2	40000 cycles per second.
F2 (For 156.25 Mc to 162.05 Mc)	36 F2	40000 cycles per second.
F3 (For 35 Mc to 76 Mc)	36 F3	40000 cycles per second.
F3 (For 156.25 Mc to 162.05 Mc)	36 F3	40000 cycles per second.
P0	Variable [3]	Variable. [3]

[1] This bandwidth does not take into consideration the effect of modulation caused by any alternating component(s) of electron-tube grid, anode, or cathode electric power supplies, which modulation is not intended to convey intelligence.

[2] In the case of class F1 emission, the emission designator will vary according to the frequency deviation, the number of words per minute, and other factors involved.

[3] In the case of class PO emission, the emission designator and the authorized emission-bandwidth will vary according to the specific values of the controlling technical factors. Reference may be made to individual station authorizations which specify therein the respective emission designator and the respective authorized emission-bandwidth. Note also the provisions of §7.131 (c)(1) concerning authorized frequency tolerance for radar transmitters.

(2) When a specific "emission designator", as expressed in subparagraph (1) of this paragraph, appears in a station authorization applicable to any station subject to this part, such designator specifies, for that station and for the particular radio-channel(s) involved, the corresponding authorized emission-bandwidth as set forth in subparagraph (1) of this paragraph.

19. a. In § 7.134, amend paragraph (a) to read:

(a) Stations on land subject to this part may use such antenna power as is necessary to carry on the service for which the station is licensed, on condition that the maximum authorized transmitter power shall, subject to the provisions of paragraph (a) of § 7.110, not be exceeded. Unless the station authorization specifically provides otherwise, the maximum authorized transmitter power (as defined in paragraph (kk) of § 7.8) shall not exceed the particular power set forth in the following paragraphs which is applicable under the controlling factors designated therein in direct relation to that power.

b. Amend paragraph (h), subparagraphs (3), (4), and (5) to read:

(3) Measurement of the effective anode (plate) voltage shall be accomplished by means of a direct-current type voltmeter (as applicable) or an alternating-current type voltmeter of proper frequency range (as applicable), each such instrument having an accuracy and reliability acceptable to the Commission. Where the same voltage is applied to more than one electron tube, measurement of this voltage shall be regarded as measurement of the voltage applied to each individual electron tube of that particular group.

(4) Measurement of the effective anode (plate) current shall be accomplished by means of a direct-current (d'Arsenval galvanometer movement) type ammeter having an accuracy and reliability acceptable to the Commission. Where the anode (plate) current through more than one electron tube flows through a common point in the electrical circuit, measurement of the current at this point shall be regarded as measurement of the total effective anode (plate) current flowing through all electron tubes of that particular group.

(5) Measurement of the actual power in watts supplied to the anode (plate) circuit of one or more electron tubes shall be acceptable provided a wattmeter properly activated by the form of voltage and current supplied is employed, and has an accuracy and reliability acceptable to the Commission.

20. a. In § 7.135, amend paragraph (a) to read:

§ 7.135 *Suppression of receiver radiation.* (a) On and after January 1, 1956 the use or operation in any station on land subject to this part, of the following type of radio receiving equipment shall be prohibited:

b. Add a new paragraph (b) to read:

(b) The provisions of paragraph (a) of this section shall not apply to radio receiving equipment which:

(1) Is not used in carrying on the specific radio service authorized for a station subject to this part, and

(2) Does not produce emission having a frequency or frequencies within any authorized frequency-band used for maritime mobile service or maritime radiolocation service, or used for any fixed service governed by this part.

21. Amend § 7.136 to read:

§ 7.136 *Acceptance of transmitters for licensing.* (a) Upon written request therefor made by the manufacturer or applicant for related station authorization, acceptance of a specific and readily identifiable type of radio transmitter as being capable of complying with all requirements of the Commission solely for the purpose of authorizing such transmitter in accordance with the provisions of § 7.21 will be given by the Commission subsequent to a satisfactory showing of compliance made by the applicant. The necessary showing of compliance shall, as a minimum, be in the form of a written statement (together with such supplemental charts, graphs, illustrations, test data, etc., as may be deemed appropriate by the applicant for type acceptance or as may be required by the Commission), over the signature of a competent radio engineer attesting to actual technical performance of the transmitter in accordance with all pertinent rules, regulations, and international agreements which must be met by the class of station for which the transmitter is intended to be licensed.

(b) Request for type acceptance and showing of compliance pursuant to the provisions of paragraph (a) of this section shall be submitted in duplicate to the Commission at Washington 25, D. C. One copy of such showing of compliance shall be signed under oath or affirmation by the engineer who conducted or supervised the related technical performance of the particular type of transmitter for the purpose of securing type acceptance by the Commission.

(c) In the event the written showing of compliance prescribed by paragraphs (a) and (b) of this section is deemed by the Commission to not furnish all information or data which it requires for the purpose of type acceptance of a particular type of radio transmitter, the Commission may supplementally require the applicant for such type acceptance to demonstrate by actual operation of the involved equipment in the presence of one or more engineers of the Commission that the same will, in fact, comply with all pertinent rules, regulations, and international agreements. In the event the showing of compliance is finally adjudged by the Commission to be unsatisfactory for the purpose of acceptance for licensing of the particular type of transmitter, type acceptance will not be given and that type of transmitter will not be licensed for the involved class of station.

22. Amend § 7.137 to read:

§ 7.137 *Special requirements for radiotelephone transmitters.* (a) Except for transmitters authorized solely for developmental stations, each radiotelephone transmitter first licensed by the Commission after July 1, 1951, for use and operation in a coast station, a marine-fixed station or a marine-utility station on shore, and all radiotelephone transmitters licensed by the Commission after January 1, 1953, for use and operation in such classes of stations shall be provided with a device that will automatically prevent modulation in excess of 100 percent. This requirement, however, shall not apply to transmitters incapable of a plate input power exceeding three watts which are authorized for marine-utility stations and other stations of portable nature.

(b) (1) Each radiotelephone transmitter authorized in a coast station license or a marine-utility station license

granted, modified, or renewed by the Commission after July 1, 1951, for use and operation at frequencies above 30 Mc (other than transmitters authorized solely for developmental stations), must be a type which is acceptable to the Commission pursuant to the provisions of § 7.136.

(2) Before being finally considered for type acceptance, such transmitters shall, in addition to meeting all other applicable requirements, comply with the following limitations and operating conditions:

(i) When radiating class F1, F2, or F3 emission on each marine radio-channel within the frequency-band 35 Mc to 44 Mc or within the frequency-band 156.35 Mc to 162.05 Mc, with 100 percent[4] modulation applied, the frequency deviation[4] shall not exceed 15 kc.

(ii) When radiating class F1, F2, or F3 emission on each radio-channel within the frequency-band 35 Mc to 44 Mc or within the frequency-band 156.35 Mc to 162.05 Mc, any emission appearing on any radio frequency removed from the carrier frequency by not less than 20 kc nor more than 40 kc shall be attenuated 25 decibels or more below the intensity of the unmodulated carrier.

(iii) Any spurious or harmonic emission appearing on any frequency removed from the carrier frequency by not less than 40 kc, shall be attenuated below the intensity of the unmodulated carrier by not less than the amount specified herewith:

Maximum authorized transmitter power as specifically defined in § 7.8 (kk):	*Attenuation (decibels)*
3 watts or less	40
Over 3 watts and including 150 watts	60
Over 150 watts and including 600 watts	70
Over 600 watts	80

23. In § 7.133, amend paragraph (a) by substituting the term "type-accepted" in place of the term "type-approved".

24. Amend § 7.155 to read:

§ 7.155 *Posting of operator license.*[3] When a licensed operator is required for the operation of a station subject to this part, the original license of each such operator while he is employed or designated as radio operator of the station shall be posted in a conspicuous place at the authorized control point at which the operator is stationed in accordance with the provisions of § 7.152: *Provided*, That the foregoing requirement shall not apply in the case of marine-utility stations on shore, upon the express condition that the licensed radio operator engaged in operating the station shall have on his person either his required operator license or a duly issued verification card (FCC Form 758–F) attesting to the existence of that license.

25. Amend § 7.201 to read:

§ 7.201 *Supplemental eligibility requirements for public coast station authorization.* (a) Subject to the basic eligibility requirements set forth in § 7.23, an authorization for a public coast station may be granted to any person, or state or local government subdivision, or any agency of the Federal government which is subject to the provisions of section 301 of the Communications Act, provided the applicant is legally, financially, and technically qualified to render the proposed service, and the public interest, convenience or necessity would be served by a grant thereof.

26. In § 7.202, amend paragraph (a) to read:

§ 7.202 *Points of communication of public coast stations.* (a) (1) Subject to the conditions and limitations imposed by the terms of the particular coast station license or by the applicable provisions of this part with respect to the use of particular radio-channels, public coast stations using telegraphy are authorized to communicate normally with public ship stations, ship stations of the United States government (other than limited ship stations subject to section 301 of the Communications Act), and aeronautical public service stations and United States government stations on board aircraft in flight, when the mobile station uses telegraphy on a radio-channel available under the provisions of Part 8 of the Commission's rules for use by ship stations for communication by means of telegraphy with public coast stations, or, in respect to a ship or aircraft station of the United States government, or a foreign ship or aircraft station, when such mobile station uses telegraphy on a radio-channel available in accordance with the International Radio Regulations for use by ship stations for communication by means of telegraphy with public coast stations.

(2) Additionally, public coast stations using telegraphy are authorized to communicate with limited ship stations, and with any class of aircraft station, when the mobile station engages solely in the transmission or reception of safety communications and uses telegraphy on any radio-channel allocated to the maritime mobile service which is authorized for ship-shore telegraphy.

27. a. In § 7.206, amend paragraph (a) as follows:

I. Amend the text preceding the list of specific frequencies so that this text shall read:

(a) Each of the specific frequencies in kilocycles hereinafter designated in this paragraph may be licensed as an assigned frequency[3] for use by coast stations (public or limited) employing telegraphy subject to and in accordance with the provisions of paragraph (b) of this section and Subpart E of this part, and upon the express condition that interference shall not be caused to any service or station which, in the discretion of the Commission, may have priority on the frequency or frequencies involved: *Provided*, That the use of each of these frequencies may be restricted by the Commission to specific areas or locations in order to avoid or minimize interference between stations: *Provided further*, That frequencies below 150 kc are assignable to Class I coast stations only; frequencies above 5000 kc are assignable primarily to Class I coast stations, and secondarily to Class II coast stations serving inland waters of the United States (including the Great Lakes) subject to showing of need therefor and on condition that interference shall not be caused to any Class I coast station:

II. Insert the existing footnote indicator 1 opposite each of the following listed frequencies: 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 173, 174, 176, 177, 178, 179, 180, 181, 182, 183, 184, 186, 187, 188, 189, 191, 193, 392, 394, 406, 408, 425, 8480, 8490, 8495, 8500, 11325, 11340, 11355, and 21750.

III. Insert an additional footnote indicator 2a opposite each of the following listed frequencies: 105, 107, 109, 110 kc, and insert a corresponding additional footnote 2a to read:

[2a] Not later than the date on which the new International Frequency List becomes effective as provided by Article 47 of the International Radio Regulations, Atlantic City, 1947, the development of long-distance radionavigation systems is authorized in the frequency-band 90 to 110 kc. This band will become exclusively allocated wholly or in part for the use of any one such system as soon as such system is internationally adopted. During the experimental period prior to the international adoption of any long-distance radionavigation system in this band, the rights of existing stations operating in this band will continue to be recognized.

IV. Insert the frequencies 8445, 8687.5, 12580, and 16690 kc in proper numerical sequence in the list of specific frequencies. Delete the frequencies 21650, 21675, 21700, and 21725 kc from the list of specific frequencies.

b. In § 7.206 (b) make the following changes:

II. Amend subparagraph (5) to read:

(5) The frequencies 8480, 8490, 8495, 8500, 8570, 8580, 11295, 11310, 11325, 11340, and 11355 kc are authorized for use by coast stations upon the express condition that intereference shall not be caused to intercontinental aeronautical services.

II. Insert additional subparagraphs (6), (7), and (8), to read:

(6) Each of the frequencies 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 173, 174, 176, 177, 178, 179, 180, 181, 182, 183, 184, 186, 187, 188, 189, 191, 193, 392, 394, 406, 408, 410, 425, and 454 kc is assignable only to a coast station whose frequency assignment, prior to the effective date of this section, included the particular frequency to be authorized, as an assigned frequency for that station. Beginning not later than the date on which Paragraph (4) of Article I of the Inter-American Radio Agreement, Washington, 1949, becomes effective or not later than the date on which the new International Frequency List becomes effective as provided by Article 47 of the International Radio Regulations, Atlantic City, 1947, whichever first occurs, these frequencies will not be assignable in accordance with international agreement to coast stations.

(7) The assigned frequency 21750 kc is authorized for use by coast stations upon the express condition that inter-

[4] See paragraphs (x), (y), and (cc) of § 7.8.

ference shall not be caused to any international broadcasting service.

(8) Specific frequencies, other than those listed in paragraph (a) of this section must be requested as set forth in § 7.47 and may not be assigned except in accordance with applicable international agreement and subsequent to appropriate rule making procedures.

28. Amend § 7.301 to read:

§ 7.301 *Supplemental eligibility requirements.* (a) Subject to the basic eligibility requirements set forth in § 7.23, an authorization for a public coast station may be granted to any person, or state or local government subdivision, or any agency of the Federal government which is subject to the provisions of section 301 of the Communications Act of 1934, provided the applicant is legally, financially, and technically qualified to render the proposed service, and the public interest, convenience or necessity would be served by a grant thereof.

29. In § 7.302, amend paragraph (a) to read:

§ 7.302 *Points of communication.* (a) (1) Subject to the conditions and limitations imposed by the terms of the particular coast station license or by the applicable provisions of this part with respect to the use of particular radio-channels, public coast stations using telephony are authorized to communicate normally with public ship stations, ship stations of the United States Government (other than limited ship stations subject to section 301 of the Communications Act), and aeronautical public service stations and United States Government stations on board aircraft in flight, when the mobile station uses telephony on a radio-channel below 100 Mc available under the provisions of Part 8 of the Commission's rules for ship-to-shore public correspondence by means of telephony, or, in respect to a ship or aircraft station of the United States Government, or a foreign ship or aircraft station, when such mobile station uses telephony on a radio-channel below 100 Mc available in accordance with the International Radio Regulations for use by ship stations for ship-to-shore public correspondence by means of telephony.

(2) Additionally, public coast stations using telephony are authorized to communicate with limited ship stations, and with any class of aircraft station, when the mobile station engages solely in the transmission or reception of safety communication and uses telephony on any radio-channel allocated to the maritime mobile service which is authorized for ship-shore telephony.

(3) Additionally, public coast stations using telephony are authorized to communicate with marine fixed stations when the coast station uses for this purpose a frequency assignment below 4000 kc (this authority applies solely to public coast stations providing direct connection with a public land line telephone system and upon the express condition that neither harmful interference nor intolerable delay is caused to communication with mobile stations);

30. Amend § 7.303 to read:

§ 7.303 *Duplication of facilities.* A public coast station shall not be authorized to provide a very high frequency maritime mobile service by the use of any frequency assignment above 100 Mc to any geographic area in which such service is already provided, or for which a valid construction permit or permits has or have been issued for the establishment of a station or stations to provide such service in that area, unless the applicant shall make an affirmative showing that the public interest, convenience or necessity would be served by such a grant, and, among other things, that there is a need for such additional facilities in the area involved, that the authorized facilities in that area are not, or will not be, adequate to meet the very high frequency communication needs in the area, and that the applicant's proposed facilities involving a frequency assignment above 100 Mc will serve the very high frequency communication needs in such area.

31. a. In § 7.304, amend paragraph (a) by inserting, immediately following the list of specific frequencies, the following additional text: "Additionally, each public coast station licensed prior to the effective date of this section for the use of telephony on the radio-channel of which 2738 kc is the authorized carrier frequency may continue to be licensed for use of this radio-channel until expiration of the current term of the particular coast station license which provides such authorization.[1a]"

b. Amend paragraph (c), subparagraph (1), to read:

(c) (1) The following specific frequencies may be licensed as authorized carrier frequencies for use by those public coast stations using telephony which, prior to September 1, 1950, were authorized to use a carrier frequency within the band 30 Mc to 40 Mc:

Carrier frequency:	*For assignment to public coast station(s) in vicinity of—*
35.14 Mc	Philadelphia, Pa.
35.18 Mc	Great Lakes region.

c. Amend paragraph (d), subparagraphs (8) and (9) to read:

(8) The frequencies 6240, 6455, and 11090 kc are authorized for use by coast stations serving vessels on the Mississippi River and connecting inland waters only (except the Great Lakes), upon the express condition that interference shall not be caused to the service of any station which, in the discretion of the Commission, may have priority on the frequency or frequencies used for the service to which interference is caused.

(9) Use of the frequency 8840 kc by coast stations serving vessels on the Mississippi River and connecting inland waters (except the Great Lakes) is authorized upon the express condition that interference shall not be caused to the service of any station which, in the discretion of the Commission, may have priority on the frequency or frequencies used for the service to which interference is caused.

d. Insert an additional paragraph (e) to read:

(e) Specific frequencies other than those listed in paragraphs (a), (b), and (c) of this section must be requested as set forth in § 7.47 and may not be assigned except in accordance with applicable international agreement and subsequent to appropriate rule making procedures.

32. In § 7.308, paragraph (c), substitute "§ 7.307" in place of "§ 7.455" which appears at the end of the parenthetical clause immediately preceding the words "is assignable to any public coast station".

33. In § 7.351, paragraph (a), insert an additional subparagraph (5) to read:

(5) An organization capable of providing a maritime mobile service, not open to public correspondence, between pilot vessels (normally stationed at the entrance to a major seaport) and a land message center at that seaport, which service is beneficial to persons or governmental agencies regularly engaged in activities essential to the operation or business of commercial transport vessels departing from or arriving at that seaport.

34. a. In § 7.356, amend paragraph (a), subparagraph (1) to read:

(1) For all geographic areas:

156.4 Mc for working (except at Chicago, Illinois, and locations within 225 miles thereof);
156.5 Mc for working;
156.6 Mc for working; primarily for harbor or port operational traffic;
156.9 Mc for working; primarily for communication of general benefit to commercial shipping;
156.8 Mc for calling and safety purposes;
156.7 Mc for working; primarily for communication essential to the maritime radiolocation service.

b. Amend paragraph (b), subparagraph (1), by insertion of the following additional text at the end of the existing subparagraph (1):

156.9 Mc for communication primarily with pilot vessels, normally stationed at the entrance to a harbor or port, that regularly and continually supply information (via the limited coast station using this carrier frequency for such communication) to marine interests on shore concerning the arrival and departure of commercial transport vessels moving to and from that harbor or port. This carrier frequency may be assigned, in areas where its use is not required for the foregoing purpose, for any communication of benefit to the operation of commercial transport vessels.

156.7 Mc primarily for communication with any class of vessel when such communication is essential to the effective operation of any maritime radiolocation service which is available to all ships within the radiolocation service area. In areas where this carrier frequency is assigned for this function, its use as a communication facility for purposes of radiolocation shall have absolute priority over any other use except for distress. In areas where the use of this carrier frequency for communication essential to radiolocation is not required, or is not required continuously, it may be assigned and used for any communication of benefit to the operation of commercial transport

[1a] See § 7.365.

vessels, subject to the express condition that interference shall not be caused to its primary use in connection with the maritime radiolocation service.

c. Amend paragraph (b), subparagraphs (2), (3), and (4) by insertion of the following text at the end of each of these existing subparagraphs:

156.9 Mc for any communication of benefit to the operation of commercial transport vessels.

156.7 Mc primarily for communication with any class of vessel when such communication is essential to the effective operation of any maritime radiolocation service which is available to all ships within the radiolocation area. In areas where this carrier frequency is assigned for this function, its use as a communication facility for purposes of radiolocation shall have absolute priority over any other use.* In areas where the use of this carrier frequency for communication essential to radiolocation is not required, or is not required continuously, it may be assigned and used for any communication of benefit to the operation of commercial transport vessels subject to the express condition that interference shall not be caused to its primary use in connection with the maritime radiolocation service.

35. In § 7.370, amend paragraph (b), subparagraph (1), to read:

(1) Each sheet of the log shall be numbered in sequence and shall include notation of the geographic area(s) in which the station is operated; the date and local standard time of operation of the station; official call sign of the marine-utility station, the name and signature of the licensed operator (or other person in accordance with Subpart F) who is responsible for operation of the marine-utility station. (The use of initials or signs in lieu of signatures is not authorized.)

36. In § 7.503, amend paragraph (b) by deletion of the following portion of the text:

Available for Coast Stations and Marine-Utility Stations

156.7 Mc 156.9 Mc

37. In § 7.213, amend paragraph (b) to read:

(b) All limited coast stations using telegraphy shall be provided with the documents prescribed by subparagraphs (1), (2), (3), (7), (8) and (9) of paragraph (a) of this section.

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICE

1. In § 8.2, insert an additional paragraph at the end of the existing text, to read:

(q) *Installed.* As used in this part with respect to the requirements of radio apparatus authorized under the provisions of this part for use on board ship or in stations subject to this part, the the term "installed" means installed on board the particular ship or in the particular station to which the pertinent rule or regulation, involving the use of this term, is applied.

*Except for distress.

2. a. In § 8.3, amend footnote 5 (in reference to paragraph (b)) to read:

[5] Aircraft stations, when transmitting on frequencies allocated to the maritime mobile service, may communicate in this service with ship stations and coast stations. In general, the frequencies assignable for this purpose to aircraft stations licensed by the Commission are the same as those below 100 Mc assignable to ship stations.

b. Delete existing paragraph (g).

c. Add the following three new paragraphs:

(g) *Marine-utility ship station.* A ship station, readily portable for use as a limited ship station on mobile vessels within a designated local area.

(h) *Marine-utility coast station.* A coast station, readily portable for use as a limited coast station at unspecified points ashore within a designated local area.

(i) *Marine-utility station.* A coast or ship station in the maritime mobile service having a frequency assignment which is available for both marine-utility coast stations and marine-utility ship stations, and licensed under one station authorization to operate as either a marine-utility coast station or a marine-utility ship station according to its location, pursuant to the provisions of paragraphs (g) and (h) of this section, at the time it is being operated.

3. In § 8.4, insert an additional paragraph at the end of the existing text, to read:

(v) *Ship-radiolocation test station.* A ship-radiolocation station used solely for testing maritime radionavigation apparatus incident to its manufacture, installation, repair, servicing, and/or maintenance.

4. In § 8.7, amend paragraph (o) to read:

(o) *Emission-bandwidth.* The band of frequencies comprising 99 percent of the total radiated power extended to include any discrete frequency on which the power is at least 0.25 percent of the total radiated power.*

5. Amend § 8.41 by substituting the figure "2000" in place of the existing figure "4000" in reference to frequencies.

6. Amend § 8.46 to read:

§ 8.46 *Application for inspection.* Pursuant to subsection 360 (b) of the Communications Act, a ship of the United States which, by reason of the provisions of Part II of Title III of the Communications Act or the radio provisions of the Safety Convention is required to be fitted with a radio installation for safety purposes, shall, at least once in each 12-month period, be made available by the owner or operating agency of the ship for a detailed inspection of the ship's radio installation. A formal application, FCC Form 801, "Application for Ship Radio Inspection", for such inspection shall be filed with the Commission's Engineer in Charge at the radio district office nearest the desired port of inspection at least 3 days prior to the date on which such inspection is desired. A service representative (who holds the proper class of radio operator license) of the ship station licensee and (unless otherwise notified by the Commission's representative) sufficient personnel to lower and raise the antenna(s) and to launch any required radio-equipped lifeboat(s), shall be available at the ship at the time inspection is to be conducted. The application for such inspection shall be filed by the shipowner, the ship operating agency, the ship station licensee, or the shipmaster. In the case of passenger ships, such application shall be filed preferably at a time to provide for such inspection coincident with the annual inspection of the vessel by the United States Coast Guard.

7. Amend § 8.102 to read:

§ 8.102 *Posting of station license.* (a) Except for certain stations to which paragraph (b) of this section is applicable and except for stations authorized in accordance with § 8.66, the original license for each station on board ship subject to this part shall be posted in a conspicuous place at the principal location on board at which the station is operated: *Provided,* That the ship radar station license shall be posted in a conspicuous place at the principal radar operating position.

(b) With respect to stations of a portable nature, including marine-utility stations but excluding stations authorized in accordance with § 8.66, where posting of the station license is impracticable, the requirement of paragraph (a) of this section shall not apply: *Provided,* That in lieu thereof the original station license or a photocopy thereof is retained on board the vessel (other than survival craft carried on board a parent ship) during the entire time the station is located thereon.

(c) With respect to a plurality of stations authorized by one station license in accordance with the provisions of § 8.66, the station license shall be retained by the licensee at any location where it is accessible to governmental inspection. In lieu of posting the license on board ship, a Transmitter Identification Card (FCC Form No. 452–c Revised) properly executed shall be affixed to the authorized transmitting equipment on board each ship: *Provided,* That where the transmitting equipment is not visible from the operating position on the ship or is not readily accessible for governmental inspection, the Transmitter Identification Card shall be affixed to the control apparatus at the principal station operating position on board. The following information shall be entered on the Transmitter Identification Card by the station licensee:

(1) Name of station licensee;

(2) Station call sign assigned by the Commission;

(3) Exact location or locations of the actual station license and any station records required by the Commission;

(4) The assigned frequency or frequencies on which the transmitting equipment is authorized to be operated; and

(5) Signature of the licensee, or his duly authorized agent.

8. In § 8.104, amend paragraph (h) to read:

(h) Each ship station using telegraphy on frequencies within the band 365 kc to 515 kc (except stations which are not capable of providing a plate input power in excess of 150 watts) must, with respect to the use of any transmitter installed subsequent to January 1, 1952, be provided with a device or arrangement readily permitting the use of a plate input power for telegraphy which is not in excess of 100 watts.

9. Amend § 8.108 to read:

§ 8.108 *Adjustment of equipment.* The transmitting equipment of each station on board ship subject to this part shall be operated, tuned, and adjusted so that there will be no radiation of emissions outside the authorized frequency-band that interferes or is capable of interfering with the service of any other station. Any spurious emissions, including radio frequency harmonics and audio frequency harmonics, shall be maintained at the lowest practicable level.

10. In § 8.110, amend paragraph (a) to read:

(a) The actual power of each radio transmitter of a ship station or a marine-utility station shall be maintained within the following tolerance of the specific power authorized for that transmitter by the Commission:

(1) When the maximum authorized transmitter power only is indicated, the actual power shall, in so far as is practicable, not be more than that necessary to carry on the service for which the station is licensed and in no event more than 5 percent above the maximum authorized transmitter power;

(2) When the exact authorized transmitter power is indicated, the actual power shall, at all times, be within the limits of 105 percent and 90 percent of the authorized power.

11. a. Amend § 8.115 by insertion of a footnote designator "4a" at the end of the section title "Retention of radio station logs", and insert an additional footnote to read:

4a See Parts 45 and 46 of the Commission's rules concerning preservation of records of common carriers.

b. Amend paragraph (b) to read:

(b) Station logs shall be made available to an authorized representative of the Commissoin upon request.

12. a. Amend § 8.131, paragraph (b), as follows. Substitute the following text in place of the first entry (1) in the left-hand column of the tabulation of authorized frequency tolerances:

(1) From 100 to 515 kc (except for 500 kc transmitters intended for use solely in lifeboats or other survival craft)

and substitute the following text in place of the third entry in the right-hand column of the tabulation of authorized frequency tolerances:

.005 when using telephony
.01 when not using telephony.

b. Amend paragraph (d), as follows. In the first entry in the left-hand column of the tabulation of authorized frequency tolerances, substitute the terminology "(1) From 30 to 50 Mc" in place of the existing terminology "(1) From 30 to 100 Mc".

13. In § 8.133, amend paragraph (c), subparagraphs (1) and (2) to read:

(1) The authorized emission-bandwidths for the classes of emission authorized in § 8.132 shall be as follows:

Class of emission	Emission designator	Emission-bandwidth authorized for transmission of intelligence [1]
A0	None	None.
A1	0.16 A1	160 cycles per second.
A2	2.7 A2	2700 cycles per second.
A2a	1.41 A2a	1410 cycles per second.
A2b	2.7 A2b	2700 cycles per second.
A3	6 A3	8000 cycles per second.
A3a	3 A3a	4000 cycles per second.
A3b	6 A3b	8000 cycles per second.
F0	None	None.
F1 (For 35 Mc to 35.2	Variable [2]	40000 cycles per second.
F1 (For 156 Mc to 158 Mc	Variable [2]	40000 cycles per second.
F2 (For 35 Mc to 35.2 Mc	36 F2	40000 cycles per second.
F2 (For 156 Mc to 158 Mc	36 F2	40000 cycles per second.
F3 (For 35 Mc to 35.2 Mc	36 F3	40000 cycles per second.
F3 (For 156 Mc to 158 Mc	36 F3	40000 cycles per second.
P0	Variable [3]	Variable.[3]

[1] This bandwidth does not take into consideration the effect of modulation caused by any alternating component(s) of electron-tube grid, anode, or cathode electric power supplies, which modulation is not intended to convey intelligence.

[2] In the case of class F1 emission, the emission designator will vary according to the frequency deviation, the number of words per minute, and other factors involved.

[3] In the case of class PO emission, the emission designator and the authorized emission-bandwidth will vary according to the specific values of the controlling technical factors. Reference may be made to individual station authorizations which specify therein the respective emission designator and the respective authorized emission-bandwidth. Note also the provisions of § 7.131 (e) (1) concerning authorized frequency tolerance for radar transmitters.

(2) When a specific "emission designator", as expressed in subparagraph (1) of this paragraph, appears in a station authorization applicable to any station subject to this part, such designator specifies, for that station and for the particular radio-channel(s) involved, the corresponding authorized emission-bandwidth as set forth in subparagraph (1) of this paragraph.

14. a. In § 8.134, amend paragraph (a) to read:

(a) Stations on board ship subject to this part may use such antenna power as is necessary to carry on the service for which the station is licensed, on condition that the maximum authorized transmitter power shall, subject to the provisions of paragraph (a) of § 8.110, not be exceeded. Unless the station authorization specifically provides otherwise, the maximum authorized transmitter power (as defined in paragraph (ii) of § 8.7) shall not exceed the particular power set forth in the following paragraphs which is applicable under the controlling factors designated therein in direct relation to that power.

b. Amend paragraph (h), subparagraphs (3), (4), and (5) to read:

(3) Measurement of the effective anode (plate) voltage shall be accomplished by means of a direct-current type voltmeter (as applicable) or an alternating-current type voltmeter of proper frequency range (as applicable), each such instrument having an accuracy and reliability acceptable to the Commission. Where the same voltage is applied to more than one electron tube, measurement of this voltage shall be regarded as measurement of the voltage applied to each individual electron tube of that particular group.

(4) Measurement of the effective anode (plate) current shall be accomplished by means of a direct-current (d'Arsenval galvanometer movement) type ammeter having an accuracy and reliability acceptable to the Commission. Where the anode (plate) current through more than one electron tube flows through a common point in the electrical circuit, measurement of the current at this point shall be regarded as measurement of the total effective anode (plate) current flowing through all electron tubes of that particular group.

(5) Measurement of the actual power in watts supplied to the anode (plate) circuit of one or more electron tubes shall be acceptable provided a wattmeter properly activated by the form of voltage and current supplied is employed, and has an accuracy and reliability acceptable to the Commission.

15. In § 8.135, add a new paragraph (c) to read:

(c) The limitations imposed upon radio receiving equipment by paragraph (a) of this section shall not apply to radio receiving equipment which:

(1) Is not used in carrying on the specific radio service authorized for a station subject to this part, and

(2) Does not produce emission having a frequency or frequencies within any authorized frequency-band used for maritime mobile service or maritime radiolocation service.

16. Amend § 8.136 to read:

§ 8.136 *Acceptance of transmitters for licensing.* (a) Upon written request therefor made by the manufacturer or applicant for related station authorization, acceptance of a specific and readily identifiable type of radio transmitter as being capable of complying with all requirements of the Commission solely for the purpose of authorizing such transmitter in accordanoe with the provisions of § 8.21 will be given by the Commission subsequent to a satisfactory showing of compliance made by the applicant. The necessary showing of compliance shall, as a minimum, be in the form of a written statement (together with such

supplemental charts, graphs, illustrations, test data, etc., as may be deemed appropriate by the applicant for type acceptance or as may be required by the Commission), over the signature of a competent radio engineer attesting to actual technical performance of the transmitter in accordance with all pertinent rules, regulations, and international agreements which must be met by the class of station for which the transmitter is intended to be licensed.

(b) Request for type acceptance and showing of compliance pursuant to the provisions of paragraph (a) of this section shall be submitted in duplicate to the Commission at Washington 25, D. C. One copy of such showing of compliance shall be signed under oath or affirmation by the engineer who conducted or supervised the related technical performance of the particular type of transmitter for the purpose of securing type acceptance by the Commission.

(c) In the event the written showing of compliance prescribed by paragraphs (a) and (b) of this section is deemed by the Commission to not furnish all information or data which it requires for the purpose of type acceptance of a particular type of radio transmitter, the Commission may supplementally require the applicant for such type acceptance to demonstrate by actual operation of the involved equipment in the presence of one or more engineers of the Commission that the same will, in fact, comply with all pertinent rules, regulations, and international agreements. In the event the showing of compliance is finally adjudged by the Commission to be unsatisfactory for the purpose of acceptance for licensing of the particular type of transmitter, type acceptance will not be given and that type of transmitter will not be licensed for the involved class of station.

17. a. Amend § 8.137, paragraph (b), to read:

(b) Each radiotelephone transmitter of a ship station or a marine-utility station shall be type-accepted by the Commission prior to its operation by any unlicensed person pursuant to the provisions of paragraph (a) of § 8.155. In addition to complying with all other applicable rules and regulations, such a transmitter shall meet the following requirements:

(1) Operation of the transmitter shall require only the use of simple external switching devices excluding all manual adjustment of radio frequency determining elements;

(2) The required radio frequency stability of the transmitter must be maintained (at all times during such operation by an unlicensed person) by the transmitter itself;

(3) None of the operations necessary to be performed during the course of normal rendition of service of the station shall be capable of causing any radiation of emission on an unauthorized frequency; and

(4) The transmitter shall be provided with a device that will automatically prevent modulation in excess of 100 percent during negative modulation "peaks" (when the carrier wave is reduced to its minimum strength by the modulating frequencies). This requirement, however, shall not apply to transmitters incapable of a plate input power exceeding three watts which are authorized for marine-utility stations and other stations of portable nature.

b. Amend paragraph (c), to read:

(c) (1) Each radiotelephone transmitter authorized in a ship station license or a marine-utility station license granted, modified, or renewed by the Commission after July 1, 1951, for use and operation at frequencies above 30 Mc (other than transmitters authorized solely for developmental stations), must be a type which is acceptable to the Commission pursuant to the provisions of § 8.136.

(2) Before being finally considered for type acceptance, such transmitters shall, in addition to meeting all other applicable requirements, comply with the following limitations and operating conditions:

(i) When radiating class F1, F2, or F3 emission on each marine radio-channel within the frequency-band 35 Mc to 44 Mc, or within the frequency-band 156.25 Mc to 157.45 Mc, with 100 per cent[1] modulation applied, the frequency deviation[1] shall not exceed 15 kc.

(ii) When radiating class F1, F2, or F3 emission on each radio-channel within the frequency-band 35 Mc to 44 Mc, or within the frequency-band 156.25 Mc to 157.45 Mc, any emission appearing on any radio frequency removed from the carrier frequency by not less than 20 kc nor more than 40 kc shall be attenuated 25 decibels or more below the intensity of the unmodulated carrier.

(iii) Any spurious or harmonic emission appearing on any frequency removed from the carrier frequency by not less than 40 kc, shall be attenuated below the intensity of the unmodulated carrier by not less than the amount specified herewith:

Maximum authorized transmitter power as specifically defined in § 8.7 (ii):	Attenuation (decibels)
3 watts or less	40
Over 3 watts and including 150 watts	60
Over 150 watts and including 600 watts	70
Over 600 watts	80

18. In § 8.138, amend paragraph (a) by substituting the term "type-accepted" in place of the term "type-approved."

19. In § 8.155, amend paragraph (a), subparagraphs (3), (4), and (6) to read:

(3) The station is authorized to use transmitting equipment only of a type which is acceptable to the Commission for operation in this service by unlicensed persons in accordance with this paragraph;

(4) The transmitting equipment operated by an unlicensed person in accordance with this paragraph is not required on board the ship for safety purposes by any statutory provisions or by any international agreement or treaty in force;

* * * * *

(6) Subsequent to any transmitter adjustments made in accordance with subparagraph (5) of this paragraph, and at all other times, the station licensee shall be responsible for determining that the transmitting equipment continues to meet the conditions established by the Commission relative to acceptance of the particular type of equipment for the purpose of operation by unlicensed persons;

20. Amend § 8.156 to read:

§ 8.156 *Posting of operator license.*[1a] When a licensed operator is required for the operation of a station subject to this part, the original license of each such operator while he is employed or designated as radio operator of the station shall be posted in a conspicuous place at the principal location on board ship at which the station is operated: *Provided*, That the foregoing requirement shall not apply in the case of stations of a portable nature, including marine-utility stations, upon the express condition that the licensed radio operator engaged in operating the station shall have on his person either his required operator license or a duly issued verification card (FCC Form 758–F) attesting to the existence of that license.

21. Amend § 8.223 to read:

§ 8.223 *Watch on 2182 kc.* (a) Each ship station on board a ship navigating the Great Lakes and licensed to transmit by telephony on one or more frequencies within the band 1600 to 4000 kc shall, during its hours of service, maintain an efficient watch for the reception of class A3 emission on the radio-channnel of which 2182 kc is the assigned frequency, whenever the station is not being used for transmission on that channel or for communication on other radio-channels.

(b) Effective on and after January 1, 1954, except as provided in paragraph (c) of this section, each ship station licensed to transmit by telephony on one or more frequencies within the band 1600 to 4000 kc shall, during its hours of service, maintain an efficient watch for the reception of class A3 emission on the radio-channel of which 2182 kc is the assigned frequency, whenever such station is not being used for transmission on that channel or for communication on other radio-channels. When the ship station is in Region 1 or 3, this watch shall, in so far as is possible, be maintained at least twice each hour for three minutes commencing at x h 00 and x h 30, Greenwich mean time (G. M. T.).

(c) With respect to ship stations on board vessels when within 300 nautical miles of Charleston, South Carolina, Jacksonville, Florida, or Wilmington, California, or within 600 miles of Vancouver, British Columbia, the requirement of paragraph (b) of this section shall become effective only when specifically ordered by the Commission.

22. a. In § 8.321, amend paragraph (a) by insertion of the parenthetical expression "(public or limited)" immediately following the words "or coast stations" and immediately preceding the words

[1] See paragraphs (v), (w), and (aa) of § 8.7.

[1a] See also §§ 13.72 and 13.74 of Part 13 of the Commission's rules.

"Provided, however" in that part of the text of this paragraph which follows the list of specific frequencies.

b. Amend § 8.321 by insertion of an additional paragraph at the end of the existing text, to read:

(c) Except as otherwise provided in paragraphs (f) and (g) of § 8.324, specific frequencies other than those listed in paragraph (a) of this section must be requested as set forth in § 8.30, and may not be assigned except in accordance with applicable international agreement and subsequent to appropriate rule making procedures.

23. In § 8.324, amend paragraph (b) to read:

(b) Ship and aircraft stations using telegraphy and working on frequencies within the band 390 to 485 kc shall use, whenever practicable, an authorized working channel of which 425 kc or 468 kc is the assigned frequency: *Provided*, That in the European coastal regions where message traffic is congested, ship and aircraft stations when using class A2 emission in this band shall use, if practicable, an authorized working channel of which either 425 kc or 480 kc is the assigned frequency: *Provided further*, That working by means of telegraphy between aircraft and ship stations shall, whenever practicable, take place on an appropriate radio-channel designated in this paragraph.

24. a. In § 8.351, paragraph (c), amend subparagraph (1) to read:

(1) Available for ship stations and marine-utility stations:

156.3	156.5	156.7	156.9
156.4	156.6	156.8	157.0

b. In paragraph (d), amend subparagraphs (11) and (12) by deletion of the last sentence in each.

c. Amend paragraph (e) to read:

(e) Except as otherwise provided in § 8.357, specific frequencies other than those listed in paragraphs (a), (b), and (c) of this section must be requested as set forth in § 8.30 and may not be assigned except in accordance with applicable international agreement and subsequent to appropriate rule making procedures.

25. Amend § 8.354 by insertion of an additional paragraph at the end of the existing text and by the insertion of a related footnote, to read: "Additionally, each ship station licensed prior to the effective date of this section for communication, by telephony on the radio-channel of which 2738 kc is the authorized carrier frequency, with one or more public coast stations using telephony on this radio-channel, may continue to be licensed for such operation until expiration of the current term of the particular ship station license which provides such authorization.[2]"

26. In § 8.355, amend paragraph (a) by deletion of the parenthetical clause "(normally providing direct connection with public service landline telephone systems)", which, in the existing text, immediately precedes subparagraph (1).

[2] See § 8.362.

27. a. In § 8.356, amend paragraph (a) by deletion of the parenthetical clause "(normally providing direct connection with public service landline telephone systems)", which, in the existing text, immediately precedes subparagraph (1).

b. Amend paragraph (b), subparagraph (1) to read:

(1) Carrier frequencies within the band 30 Mc to 40 Mc which, subject to and in accordance with the conditions and limitations hereinafter set forth in this paragraph are authorized for use by public ship stations employing telephony by means of either frequency modulation or amplitude modulation for transmission and reception of public correspondence exclusively on the same radio-channel, only when communicating with public coast stations licensed to transmit on frequencies within this band prior to the effective date of this section and located within the vicinity of the respective harbor(s), port (s), or place(s) designated herein opposite the particular carrier frequency.

Carrier frequency:	*For communication only with coast stations within the vicinity of—*
35.14 Mc	Philadelphia, Pa.
35.18 Mc	Great Lakes Region.

28. a. In § 8.359, amend paragraph (a) by insertion of the following text; the same to immediately follow that part of the existing text which designates the use of 156.3 Mc and to immediately precede that part of the existing text which designates the use of 157.0 Mc:

156.7 Mc primarily for communication with limited coast stations for the exchange of information essential to the maritime radiolocation service; available for any ship station or marine-utility station on board ship in any area.

b. Amend by insertion of an additional paragraph at the end of the existing text, to read:

(f) The radio-channel of which 156.7 Mc is the authorized carrier frequency is designated primarily for communication with limited coast stations when such communication is essential to the effective operation of any maritime radiolocation service which is available to all ships within the radiolocation service area. In areas where this carrier frequency is assigned for this function, its use as a communication facility for purposes of radiolocation shall have obsolute priority over any other use except for distress. In areas where the use of this carrier frequency for communication essential to radiolocation is not required, or is not required continuously, it may be assigned and used for any communication of benefit to the operation of commercial transport vessels, subject to the express condition that interference shall not be caused to its primary use in connection with the maritime radiolocation service.

29. a. In § 8.360, amend paragraph (a) by insertion of the following text, the same to immediately follow that part of the existing text which designates the use of 156.6 Mc and to immediately precede that part of the existing text which designates the use of 157.0 Mc:

156.9 Mc: All areas (primarily for communication of general benefit to commercial shipping).

b. Amend paragraph (d) by insertion of the following text at the end of the existing text: "Additionally the carrier frequency 156.5 Mc is authorized for use by any commercial transport vessel within the respective area above designated, for communication solely with any vessel authorized to use this carrier frequency in accordance with the foregoing provisions of this paragraph."

c. Amend in the following respects: Change the designation of existing paragraphs (f), (g), and (h) to (g), (h), and (i), respectively.

d. Insert an additional paragraph designated (f) to read:

(f) The carrier frequency 156.9 Mc is authorized primarily for use by pilot vessels, normally stationed at the entrance to a harbor or port, that regularly and continually supply information (via one or more limited coast stations using this carrier frequency for such communication) to marine interests on shore concerning the arrival and departure of commercial transport vessels moving to and from that harbor or port. This carrier frequency may be assigned, in areas where its use is not required for the foregoing purpose, for any communication of benefit to the operation of commercial transport vessels.

e. In paragraph (h) (former paragraph (g)), insert in numerical sequence the figures "156.7" and "156.9" in the list of frequencies which appears in the first part of this paragraph.

f. In paragraph (i) (former paragraph (h)), insert in numerical sequence the figures "156.7" and "156.9" in the list of frequencies which appears in the first part of this paragraph.

30. Amend § 8.362 by inserting an additional paragraph at the end of the existing text to read:

(c) In addition to availability of the carrier frequencies 2638 kc and 2738 kc primarily for intership communication as prescribed in § 8.358, either of these carrier frequencies may, in response to proper application therefor, be specifically authorized in private aircraft station licenses for communication by means of telephony (amplitude modulation) with a ship station or stations: *Provided:*

(1) The applicant makes a showing satisfactory to the Commission that such communication is necessary to serve an important business or operational need of the involved ship station(s) while they are engaged in commercial fishing activities; and

(2) Harmful interference will not be caused to the service of ship-to-ship communications; and

(3) The maximum plate input power to be used shall not exceed 50 watts; and

(4) The aircraft-to-ship and ship-to-aircraft communication which takes place on the radio-channel of which either 2638 kc or 2738 kc is the authorized carrier frequency shall be limited exclusively to that which is necessary to

serve an important business or operational need of the vessel(s) on which the ship station(s) is(are) located while such vessel(s) is(are) engaged in commercial fishing activities; and

(5) All of the provisions of this part (in particular § 8.366) in respect to authorization and use of the carrier frequencies 2638 kc and 2738 kc for intership communication (except as otherwise specified in this paragraph with respect to maximum plate input power) shall apply to all aircraft stations authorized for this purpose under the provisions of this paragraph; and

(6) Authority for use of the carrier frequency 2638 kc under the foregoing provisions of this paragraph may be granted only to those private aircraft stations which, prior to the effective date of this section, were licensed to transmit on this carrier frequency for communication by telephony with ship stations for the purpose expressed in this paragraph.

31. In § 8.368, paragraph (b), amend subparagraph (1) to read:

(1) Each sheet of the log shall be numbered in sequence and shall include the name and geographic area of navigation of the vessel upon which the station is operated; the date and local standard time of operation of the station; official call sign of the marine-utility station, the name and signature of the licensed operator (or other person in accordance with § 8.155) who is responsible for operation of the marine-utility station. (The use of initials or signs in lieu of signatures is not authorized.)

32. Amend footnote 4 in reference to § 8.405, paragraph (a), to read:

'See § 8.138 relative to type acceptance of ship radar transmitters.

33. In § 8.433, amend paragraph (b) by deletion of the frequencies "156.7 Mc" and "156.9 Mc".

34. a. In § 8.552, amend paragraph (c) to read:

(c) A main transmitter shall be capable of efficient operation at its required antenna power when adjusted to any required operating frequency and when energized by the main power supply of the ship station in which it is installed or a power supply equivalent therto: *Provided*, That the potential of the main power supply or equivalent power supply is maintained within the tolerance specified in § 8.503; shall be capable of being adjusted rapidly for operation on any one of its required operating frequencies; and shall conform with all other applicable rules of this part.

b. Amend by insertion of an additional paragraph at the end of the existing text, to read:

(g) (1) A main transmitter, completed prior to January 1, 1952, shall be provided with an arrangement for conveniently reducing the plate input power of such transmitter to approximately one-half of its rated plate input power.

(2) A main transmitter, completed on or after January 1, 1952 (except a transmitter not capable of a plate input power exceeding 150 watts) shall be provided with an arrangement for conveniently reducing the plate input power of such transmitter to not more than 100 watts, unless there is available in the same station, a duly authorized radiotelegraph transmitter capable of operation on the radio-channels required for a main transmitter, capable of being energized by a main power supply, and not capable of a plate input power in excess of 150 watts.

35. a. In § 8.554, paragraph (a), amend subparagraph (3) to read:

(3) *Requirements as to testing and approval.* (i) Before an auto-alarm receiver will be approved by the Commission pursuant to subsection (x) of section 3 of the Communications Act, a sample type of such auto-alarm receiver must be submitted for the purpose of demonstrating by means of suitable laboratory and field tests, that it complies with these requirements. Such tests will be conducted by the Commission, and other cooperating United States government departments or agencies as may be appropriate, under the test specifications set forth under subparagraph (5) of this paragraph.

(ii) Failure to pass any specified test may result, by order of the Commission, in the discontinuance of all tests on the unit or component involved and the immediate rejection of the entire apparatus.

(iii) Manufacturers' tests of the complete device and/or of any components thereof shall be conducted in the laboratory or shop of the manufacturer(s). These tests shall be carried out in accordance with the provisions of subparagraph (4) of this paragraph.

(iv) Laboratory tests conducted by the Commission and/or by any other cooperating United States government department or agency as may be appropriate, under test specifications prescribed by the Commission shall be at the expense of the manufacturer or person submitting the device for approval. A report of the tests conducted by the Commission, and/or other government department, will be available to the Commission only: *Provided*, That such reports will be made available to the manufacturer involved at a subsequent date to be determined by the Commission.

b. In paragraph (a), amend the first part of subparagraph (5) to read:

(5) *Requirements as to laboratory tests.* (i) The following tests shall be conducted at the Commission's Laboratory at Laurel, Maryland, and shall be at the expense of the manufacturer or person submitting the auto-alarm for approval. The report of these tests will be furnished to the Commission only. Tests will be conducted as described in the following paragraphs with the auto-alarm connected to an artificial antenna consisting of a 20 microhenry inductance, a 500 micromicrofarad capacitor and a 5 ohm resistor connected in series. The receiver will be tested with its internal sensitivity control (if provided) set at maximum sensitivity, except where otherwise specified.

36. In § 8.555, paragraph (c), subparagraph (3), amend subdivision (iv) to read:

(iv) Laboratory tests shall be conducted by the Commission, and/or by any other cooperating United States government department as may be appropriate, under test specifications prescribed by the Commission and shall be at the expense of the manufacturer or person submitting the device for approval. A report of the tests conducted by the Commission, and/or other government department, will be available to the Commission only: *Provided*, That such reports will be made available to the manufacturer involved at a subsequent date to be determined by the Commission.

[Docket No. 9828]

Extension of Lines and Discontinuance of Service by Carriers

Notice of Proposed Rule Making

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. It is proposed to amend Part 63 of the Commission's rules and regulations governing Extension of Lines and Discontinuance of Service by Carriers by inserting specific provisions relating to applications by carriers for authority to discontinue, reduce or impair service provided by public coast stations and by making certain editorial changes. The proposed amendments are set forth below.

3. These proposed amendments are issued under authority of sections 4 (i) and 214 of the Communications Act of 1934, as amended.

4. Any interested party who is of the opinion that the proposed rules should not be adopted, or should not be adopted in the form set forth herein may file with the Commission on or before December 15, 1950, a written statement or brief setting forth his comments. At the same time, any person who favors the rules as set forth may file a statement in support thereof. Comments or briefs in reply to the original briefs or comments may be filed on or before January 2, 1951. The Commission will consider all such comments, briefs and statements presented before taking final action in the matter. If any comments are received which appear to warrant the Commission in holding an oral argument before final action is taken, notice of the time and place of such oral argument will be given such interested parties.

5. In accordance with the provisions of § 1.764 of the Commission's rules, an original and fourteen copies of all state-

ments, briefs, or comments filed shall be furnished the Commission.

Released: November 16, 1950.

Adopted: November 13, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

1. a. In § 63.60 substitute the following text for the present text of subparagraph (1) of paragraph (a):

(1) The closure by a carrier of a public telegraph office, a telephone exchange rendering interstate or foreign telephone toll service, a public toll station serving a community or part of a community, or a public coast station;[1] the term "closure" of a public telegraph office includes the substitution of an agency or jointly operated office for a telegraph office operated directly by the carrier but does not include the substitution of any one for any other of the three types of telegraph agency offices, namely; joint railroad-operated agencies, teleprinter-operated agencies, or telephone-operated agencies, except where an increase in charges to the public results;

b. Amend subparagraph (2) of paragraph (a), by changing the semicolon after "carrier" to a comma and inserting "or at a public coast station;"

c. Amend paragraph (b) by inserting "10 days in the case of public coast stations;" after "jointly operated or agency telegraph offices;"

2. In § 63.61 cross reference the following footnote with the word "discontinue" in line 4:

[1] A licensee of a radio station who has filed an application for authority to discontinue service provided by such station shall, during the period that such application is pending before the Commission, continue to file appropriate applications as may be necessary for extension or renewal of station license in order to provide legal authorization for such station to continue in operation pending final action on the application for discontinuance of service.

3. In § 63.62 substitute the following text for the present text of § 63.62, leaving the present heading unchanged and substitute the following footnote for the present footnote:

§ 63.62 *Type of discontinuance, reduction or impairment of telephone or telegraph service requiring formal application.* Authority for the following types of discontinuance, reduction or impairment of service shall be requested by formal application containing the information required by the Commission in the appropriate sections to this part, except as provided in paragraphs (c) and (e) of this section, or, in emergency cases,[2] as provided in § 63.63:

(a) The dismantling or removal of a trunk line: (For contents of applications, see § 63.500.)

(b) The severance of physical connection or the termination or suspension of the interchange of traffic with another carrier: (For contents of application, see § 63.501.)

(c) The closure of, or reduction of hours of service at, a public telegraph office, except that this paragraph shall not apply to the classes of cases specified in §§ 63.64, 63.66, 63.67 and 63.68 hereof where the carrier elects to follow the procedure prescribed in those sections: (For contents of application, see §§ 63.502 and 63.503.)

(d) The closure of a public toll station where no other such toll station of the applicant in the community will continue service: (For contents of application, see § 63.504.)

(e) The closure of, or reduction of hours of service at, a public coast station: (For contents of application, see § 63.600) Except that this paragraph shall not apply to the cases specified in § 63.69 where the carrier elects to follow the procedure prescribed in that section;

(f) Any other type of discontinuance, reduction or impairment of telephone or telegraph service not specifically provided for by other provisions of this part: (For contents of application, see § 63.505.)

Provided, however, That an application may be filed requesting authority to make a type of reduction in service under specified standards and conditions in lieu of individual applications for each instance coming within the type of reduction in service proposed.

4. a. In § 63.63 amend paragraph (a) by inserting a comma after "agency offices" in subparagraph (2) and a new subparagraph (3) as follows:

(3) 10 days in the case of public coast stations.

b. Redesignate the present subparagraph (3) of paragraph (a) to become subparagraph (4).

5. Insert a new § 63.69, with heading and text as follows:

§ 63.69 *Alternative procedure to be followed in certain specified cases where authority to reduce the hours of service at a public coast station is desired.* (a) In lieu of filing a formal application, a carrier may file in quintuplicate an informal request, duly verified, or affirmed according to law, for authority to reduce the hours of service of a public coast station under the following specified standards and conditions:

(1) The remaining hours of service will not be less than 10 hours per day, Monday through Saturday; the average hourly number of messages handled during each hour to be deleted, as reflected by traffic statistics for the latest month for which such statistics are available, if a normal month with respect to conditions generally affecting traffic volume, is not more than 2 messages per hour, and the maximum number of messages handled in any hour to be deleted, as reflected by the above-mentioned statistics, is not more than 4 messages per hour.

(2) Applicant will file with the Federal Communications Commission a form in quintuplicate for the public coast station at which reduction in hours is proposed, giving the information called for on the sample form appearing in § 63.601 and at the same time will forward a copy of such form to the State Commission, as defined in section 3 (t) of the Communications Act, or to the Governor, if there is no such Commission, of the State in which the public coast station is located. Applicant will not effect such reduction in hours of operation until fifteen days after such form is filed with the Federal Communications Commission, and will not reduce hours in any case, if advised by the Commission, within such fifteen-day period, not to effect such reduction.

(3) Upon written request from the Commission at any time within 6 months from the effective date of a reduction in the hours of service at any public coast station as authorized under this section, applicant will forthwith re-establish the former hours and will retain such hours unless and until authorized to reduce them upon individual and specific application to the Commission.

(4) Applicant will post a public notice at least 20 inches by 24 inches, with letters of commensurate size, in a conspicuous place in the public coast station[4] involved for a period of fourteen consecutive days, seven days of which shall be prior to the effective date of such reduction in hours of service, and seven days of which shall follow such effective date, such notice shall be in the following form:

Notice is hereby given that (name of applicant) proposes to reduce the hours of service at public coast station (call and location) from the present hours of ------ m. to ------ m. to the hours of ------ m. to ------ m., effective ----------. Persons desiring to file messages for transmission to marine mobile stations during the closed hours of this station may file such messages (give appropriate description of substitute service). Any member of the public objecting to the above change in service may communicate with the Federal Communications Commission, Washington 25, D. C.

(b) Authority for the reduction in hours of service proposed under this Section shall be deemed to have been granted by the Commission effective as of the fifteenth day following the date of filing of such request with the Commission unless on or before the fifteenth day the Commission shall notify the applicant to the contrary.

6. a. In § 63.90 substitute the following text for the present text of paragraph (a):

§ 63.90 *Publication and posting of notices.* (a) Immediately upon the filing of an application or informal request (except a request under §§ 63.67, 63.68 or 63.69) for authority to close, or reduce the hours of service at, a telephone exchange or a telegraph office (except an agency office, a jointly-operated office, or an office or exchange located at a military establishment), or a public coast station, the applicant shall post a public

[1] See § 7.3 of the Commission's rules of this chapter.

[2] See § 63.60 (b).

[4] *Provided, however,* That in cases where the public coast station is not ordinarily accessible to the general public for the purpose of filing or accepting delivery of messages, but an associated public office is provided for that purpose, the public notice herein referred to shall be posted in the public office.

notice at least twenty inches (20") by twenty-four inches (24"), with letters of commensurate size, in a conspicuous place at the office, or public coast station,[6] affected for at least fourteen (14) days, which notice shall be in the following form:

(Date of first posting of notice)

Notice is hereby given that application was made on the ____ day of _____, 19____ by _____ to the Federal Communications Commission to close (or reduce the hours of service from the present hours of service _____ m. to _____ m. to the hours _____ m. to _____ m.) (telephone exchange, telegraph office, or public coast station involved, including address and other appropriate identification). If the application is granted, substitute service will be available from _____ m. to _____ m. at the _____ (or give other appropriate description of substitute service). Any member of the public desiring to protest or support the proposed change in service may communicate with the Federal Communications Commission, Washington 25, D. C., on or before _____. (Fill in date which is 20 days after the date of the first posting of notice).

(name of applicant)

b. Amend paragraph (b), by adding "or § 63.69" after "§ 63.68" in the parenthetical phrase, and by changing the word "or" immediately preceding "§63.68" to a comma.

7. In § 63.600 insert a new § 63.600 with heading and text as follows:

§ 63.600 *Contents of applications to close, or reduce hours of service at, a public coast station.* (a) The name and address of each applicant;

(b) The name, title, and post office address of the officer to whom correspondence concerning the application is to be addressed;

(c) Nature of proposed discontinuance, reduction or impairment;

(d) Identification of community or part of community served by coast station involved and date on which applicant desires to make proposed discontinuance, reduction or impairment effective; if for a temporary period only, indicate the appropriate period for which authorization is desired;

(e) Proposed new tariff listing, if any, and differences, if any, between present charges to the public and charges for the service to be substituted;

(f) Description of the service area affected including population and general character of business of the community, and the approximate range of operations with marine mobile stations;

(g) Name of other carrier or carriers providing public telegraph or telephone service (both domestic and coastal) in the affected community, or in the marine area served by the public coast station involved;

(h) List of U. S. Coast Guard radio stations providing safety and distress coverage in the area served by the public coast station involved;

(i) Statement of the reasons for the proposed discontinuance, reduction or impairment;

(j) Statement of the factors showing that neither the present nor future public convenience and necessity would be adversely affected by the granting of the application;

(k) Description of any previous discontinuance, reduction or impairment of service to community in which the station involved is located or in the marine area served by that station, which has been made by applicant during the 12 months preceding filing of application, and statement of any present plans for future discontinuance, reduction or impairment of such service;

(l) Street address, location in building (street, lobby, or upper floor), hours of operation at present station and the extent and character of any local pickup and delivery facilities, including number of messengers or agents, description of any arrangements for transferring messages to other carriers for local delivery or transmission to distant points;

(m) Number of messages sent and number received, revenue received from handling such messages, and direct operating expenses for each past 12 months, if closure is proposed, and for each of past 3 months if reduction in hours is proposed, and an estimate as to what difference, if any, in the amount of such traffic, revenues, and expenses, would be expected for the ensuing year if present service were continued, and the basis for such estimates;

(n) For the most recent month for which statistics are available, the distribution of inbound and outbound messages separately as between number handled over the counter, by messenger, agent, telephone, transferred to or from another coast station operated by applicant, transferred to or from another carrier, or other method;

(o) Full description of service which will be available to the community affected through other public coast stations, if any, either through the facilities of applicant or those of other carriers, including location of such stations, hours of service, and the extent of pickup and delivery facilities in the community affected, if any;

(p) Full description of other public communication service available in the community affected, including location of public offices, hours of service, and extent of any pickup and delivery facilities;

(q) If application is for reduction of hours:

(1) Present hours and proposed hours;

(2) For the most recent month for which statistics are available, the distribution of inbound and outbound messages separately for each hour proposed to be deleted, including distribution of such messages as between number handled over the counter, by messenger, agent, telephone, transferred to or from another coast station operated by applicant, transferred to or from another carrier, or other method;

(3) For each hour proposed to be deleted, full description of substitute service, provided either by applicant or available through the facilities of other carriers, as outlined under paragraphs (o) and (p) of this section.

8. Insert a new § 63.601, as follows:

RECORDS OF ENTRY AND CLEARANCE OF VESSELS AND OF IMPORTS AND EXPORTS

RESTRICTIONS

The matter of prohibiting disclosure of information concerning records of entry and clearance of vessels and information concerning imports and exports is being reconsidered to determine to what extent the prohibitions in T. D. 52583 (15 F. R. 7295) are now necessary for the security of the United States.

In view of information leading to the tentative conclusion that the security of the United States will not be endangered by the disclosure of information concerning the entry of vessels and the importation of merchandise, the prohibitions in T. D. 52583 shall be limited to information concerning the clearance of vessels and the exportation of merchandise, until further notice.

FEDERAL POWER COMMISSION

[Docket No. G-1525]

SOUTHERN NATURAL GAS CO.

NOTICE OF APPLICATION

NOVEMBER 16, 1950.

Take notice that Southern Natural Gas Company (Applicant), a Delaware corporation, of Birmingham, Alabama, filed on November 2, 1950, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of a line tap and metering facilities on Applicant's main transmission line at Oak Ridge, Alabama, for the delivery of natural gas to the Town of Oak Ridge, Alabama.

Applicant states that the Town of Oak Ridge is presently being served through the natural gas distribution system of Pell City, Alabama, but the Town of Oak Ridge proposes to take gas directly from Applicant.

Applicant estimates peak day requirements in the fifth year of service will total 185 Mcf; and annual requirements will total 16,875 Mcf.

The estimated cost of the proposed facilities is $4,850 to be financed from Applicant's current funds.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 6th day of December 1950. The application is on file with the Commission for public inspection.

MONTANA-DAKOTA UTILITIES CO.

NOTICE OF APPLICATION

NOVEMBER 16, 1950.

Take notice that Montana-Dakota Utilities Co., a Delaware corporation, of Minneapolis, Minnesota, filed on November 6, 1950, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 3,300 feet of 6⅝ inch O. D. pipeline, extending from Applicant's main 10-inch transmission line to the South Dakota State Cement Plant, near Rapid City, South Dakota.

The proposed facilities are to provide for deliveries of approximately 2,500 Mcf of natural gas per day at transmission line pressure to the State Cement Plant, since the said volumes of gas can not be delivered through Applicant's existing facilities which are now being operated at low pressure.

Applicant estimates the cost of construction of the proposed facilities to be $6,500, to be financed out of current funds.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 6th day of December 1950. The application is on file with the Commission for public inspection.

MONTANA-DAKOTA UTILITIES CO.

NOTICE OF APPLICATION

NOVEMBER 16, 1950.

Take notice that Montana-Dakota Utilities Co., a Delaware corporation, of Minneapolis, Minnesota, filed on November 6, 1950, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 3,000 feet of 3½-inch O. D. pipeline to replace an equivalent length of the 1½-inch pipeline, serving the Eastern Clay Products Company and American Colloid Company, near Belle Fourche, South Dakota.

Applicant estimates the cost of construction and removal of the old pipe will approximate $3,700 to be paid out of current funds.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 6th day of December, 1950. The appli-

cation is on file with the Commission for public inspection.

[4th Sec. Application 25224, Amdt.]

CAUSTIC SODA FROM HUNTSVILLE AND REDSTONE ARSENAL, ALA., TO NATCHEZ, MISS.

APPLICATION FOR RELIEF

NOVEMBER 17, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for and on behalf of carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1085.

Commodities involved: Caustic soda, liquid, carloads.

From: Huntsville and Redstone Arsenal, Ala.

To: Natchez, Miss.

Grounds for relief: Circuitous routes. Market competition.

Schedules filed containing proposed rates: C. A. Spaninger's tariff I. C. C. No. 1085, Supp. 108.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2490]

GULF POWER CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 15th day of November A. D. 1950.

Gulf Power Company ("Gulf"), a public utility subsidiary of The Southern Company, a registered holding company, having filed a declaration and amendments thereto, pursuant to sections 6 (a), 7 and 12 (c) of the Public Utility Holding Company Act of 1935 (the "Act") and Rules U-42 and U-50 promulgated thereunder, regarding, among other things, the proposed issuance of 51,026 shares of cumulative __ percent preferred stock of $100 par value by (a) selling to underwriters, pursuant to the competitive bidding requirements of Rule U-50, 40,000 shares of new preferred stock plus such of the remaining 11,026 shares as are not used to effect exchanges as set forth in (b) hereafter, and (b) offering 11,026 shares of such preferred stock and cash in exchange for Gulf's outstanding 11,026 shares of $6 preferred stock without par value the successful underwriters to receive compensation, for effectuating the exchanges, in an amount per share exchanged equal to the underwriting spread on each share sold; and

The Commission having by order dated November 1, 1950, permitted such declaration, as amended, to become effective, subject, however to the conditions, among others, that the proposed sale of the new preferred stock of Gulf should not be consummated until the results of the competitive bidding pursuant to Rule U-50 had been made a matter of record in this proceeding and a further order had been entered by this Commission in the light of the record so completed, and that jurisdiction be reserved with respect to all fees and expenses incurred or to be incurred with respect to the proposed transactions; and

Gulf having filed a further amendment to its declaration herein stated that, pursuant to the invitation for competitive bids, the following bids for the said preferred stock have been received:

Group headed by—	Dividend rate (percent)	Price to company	Cost to company (percent of price)
Harriman Ripley & Co., Inc..	4.64	$100.51	4.6165
Union Securities Corp.....	4.64	100.40	4.6215
Salomon Bros. & Hutzler.....			
Equitable Securities Corp....	4.72	100.52	4.6956
Kidder, Peabody & Co.....	4.72	100.091	4.7157
White, Weld & Co.....			

Said amendment having further stated that Gulf has accepted the bid of the group headed by Harriman Ripley & Co., Incorporated, as set out above, and that the preferred stock to be sold will be offered for sale to the public at a price of $103 per share plus accrued dividends from October 1, 1950, to the date of delivery, resulting in an underwriting spread of $2.49 per share of said preferred stock; and

Said declaration, as amended, further stating that, excluding the compensation to be paid to the aforesaid underwriting group for effecting exchanges, the estimated fees and expenses to be incurred and paid by declarant in connection with the proposed transactions amount to $49,119, including a payment of not exceeding $3,500 to Southern Services, Inc., the mutual service company in The Southern Company holding company system, legal fees in the amount of $8,000 payable to Winthrop, Stimson, Putnam & Roberts, counsel for the company, and accountants' fees of $2,800 payable to Arthur Anderson & Co.; and said declaration, as amended, also stating that a fee of $5,000 is to be paid by the purchasers of the preferred stock to Reid & Priest, their counsel; and it appearing that such fees and expenses are not unreasonable; and

The Commission having examined said amendment and having considered the record herein and finding no basis for imposing terms and conditions with respect to the price to be paid for said preferred stock, the dividend rate and the proposed underwriter's spread in connection therewith:

It is ordered, That the jurisdiction heretofore reserved with respect to the matters to be determined as a result of competitive bidding in connection with the sale of the new preferred stock under Rule U-50 and with respect to fees and expenses be, and the same hereby is, released, and that the said declaration of Gulf, as amended, be, and the same hereby is, permitted to become effective forthwith, subject, however, to the terms and conditions prescribed in Rule U-24.

It is further ordered, That the jurisdiction heretofore reserved with respect to the proposed accounting entries to be made by Gulf to reflect the exchanges of new preferred stock for old preferred stock be, and the same hereby is, continued.

By the Commission.

LOUISIANA POWER & LIGHT CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 15th day of November A. D. 1950.

Louisiana Power & Light Company ("Louisiana"), a utility subsidiary of Middle South Utilities, Inc., a registered holding company, having filed a declaration, and amendments thereto, with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act"), particularly sections 6 (a) and 7 thereof and Rule U-50 thereunder, regarding the issue and sale, at competitive bidding, of $10,000,000 principal amount of First Mortgage Bonds, __ percent series, due 1980; and

The Commission having by order dated November 1, 1950, permitted said declaration, as amended, to become effective subject to the condition that the proposed issue and sale of said bonds not be consummated until the results of competitive bidding pursuant to Rule U-50 had been made a matter of record in this proceeding and a further order entered by the Commission in light of the record as so completed, and subject to a reservation of jurisdiction with respect to the payment of all legal fees and expenses incurred or to be incurred in connection with the proposed transactions; and

Louisiana having filed a further amendment to its declaration setting forth the action taken to comply with the requirements of Rule U-50 and stating that pursuant to an invitation for competitive bids the following bids for the bonds were received:

Bidding group headed by—	Coupon rate (percent)	Price to company	Cost to company
Equitable Securities Corp....	3	101.7892	2.9102
Halsey, Stuart & Co. Inc.....	3	101.574	2.9209
Blyth & Co., Inc.....	3	101.55	2.9220
White Weld & Co. and Shield & Co.....	3	101.543	2.9224
Salomon Bros. & Hutzler.....	3	101.459	2.9266
Merrill Lynch, Pierce, Fenner & Beane and Kidder, Peabody & Co.....	3	101.434	2.9278
Kuhn, Loeb & Co.....	3	101.414	2.9288
W. C. Langley & Co., The First Boston Corp., and Glore, Forgan & Co.....	3	100.9077	2.9542
Harriman Ripley & Co., Inc..	3	100.34	2.9828

Said amendment to the declaration having further set forth that Louisiana has accepted the bid of Equitable Securities Corporation as set out above, and that said bonds will be offered to the public at a price of 101.994 percent of the principal amount thereof to yield 2.90 percent, the gross spread being .2048 percent per unit, or a total amount of $20,480; and

Said amendment having further set forth that Louisiana proposes to pay the following legal fees:

Reid & Priest (New York counsel for Louisiana)	$7,500
Monroe & Lemann (local counsel for Louisiana)	7,500
Winthrop, Stimson, Putnam & Roberts (counsel for underwriters)	5,000

and

The Commission having examined said amendment and having considered the record herein, and finding no reason for imposing terms and conditions with respect to the aforesaid security issue other than those contained in Rule U-24, and finding that the legal fees proposed to be paid in connection with the issuance and sale of said securities are not unreasonable:

It is ordered, That jurisdiction heretofore reserved with respect to the matters to be determined as a result of competitive bidding for the purchase of said bonds of Louisiana under Rule U-50 be, and the same hereby is, released, and that said declaration, as amended, be, and the same hereby is, permitted to become effective forthwith, subject however, to the terms and conditions contained in Rule U-24.

It is further ordered, That jurisdiction heretofore reserved over the payment of fees and expenses of counsel in connection with the proposed transactions be, and the same hereby is released.

By the Commission.

[File No. 812-679]

EQUITY CORP. ET AL.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 16th day of November A. D. 1950.

In the matter of the Equity Corporation, First York Corporation, Baker Refrigeration Corporation; File No. 812-679.

Notice is hereby given that Baker Refrigeration Corporation (Baker), South Windham, Maine, has filed an amended application under Rule N-17D-1 promulgated under the Investment Company Act of 1940 with respect to a proposed "District Managers' Compensation Incentive Plan" (the Plan).

The Equity Corporation and First York Corporation, both of 103 Park Avenue, New York, New York, are registered management investment companies. The Equity Corporation owns approximately 82 percent of the voting stock of First York Corporation. First York Corporation owns all of the issued and outstanding capital stock of Baker. Baker, therefore, is a company controlled by registered investment companies.

Rule N-17D-1 provides, in part, that "No affiliated person of any registered investment company, or of any company controlled by any such registered company, shall participate in, or effect any transaction in connection with, any bonus, profit-sharing or pension plan or arrangement in which any such registered or controlled company is a participant unless an application regarding such plan or arrangement has been filed with the Commission and has been granted by an order entered prior to the submission of such plan or arrangement to security holders for approval, or prior to the adoption thereof, if not so submitted."

Baker was organized in Nebraska in 1919 and is engaged in the manufacture and sale of air-conditioning and refrigeration equipment. Pursuant to the proposed Plan, 3 percent of the excess of the gross sales of Baker in the defined sales territory over the amount of $2,150,000 for the fiscal year ended October 31, 1950, and over an amount not less than $2,150,000 as determined by the board of directors or executive committee in subsequent fiscal years, shall be paid into the Plan. Payments are to be allocated and paid to eligible district managers on the basis that one-half of the funds are to be allocated on the basis of the basic salaries of said managers and the other half of the funds are to be allocated on the extent to which said managers exceed their respective sales quotas. It is stated that the Plan has been amended so as to have reference only to products manufactured and sold in the ordinary course of business. No officer or director of Baker or of any of the affiliated investment companies will be eligible to participate in the Plan.

All interested persons are referred to said application which is on file at the Washington, D. C., office of the Commission, for a more detailed statement of the matters of fact and law therein asserted.

Notice is further given that an order granting the application may be issued by the Commission at any time after December 11, 1950, unless prior thereto a hearing upon the application is ordered by the Commission, as provided by Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than December 8, 1950, at 5:30 p. m., e. s. t., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

MALCOLM L. ENO

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 15th day of November 1950.

In the matter of Malcolm L. Eno, 1510 S. Cascade Avenue, Colorado Springs, Colorado.

I. The Commission's public official files disclose that Malcolm L. Eno, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943, 1944, 1945, 1946, 1947, 1948 or 1949 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statements set forth in Paragraph II hereof are true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 4th day of December 1950, at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing

[1] Filed as part of the original document.

Room Clerk in Room 101, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before November 27th, 1950. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to December 4th, 1950.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

ARTHUR STEWART

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 15th day of November 1950.

In the matter of Arthur Stewart, 504 Symes Bldg., Denver, Colorado.

I. The Commission's public official files disclose that Arthur Stewart, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943, 1944, 1945, 1946, 1947, 1948 or 1949 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

[1] Filed as part of the original document.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statements set forth in Paragraph II hereof are true;

(b) Whether registrant has willfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 4th day of December 1950 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 101, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before November 27th, 1950. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to December 4th, 1950.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[Vesting Order 15695]

JOHANN TOEGEL ET AL.

In re: Interest in real property owned by Johann Togel, also known as Johann Toegel and others. F–28–12435–B–1, F–28–12437–B–1, F–28–9143–E–1, D–28–5826.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Johann Togel, also known as Johann Toegel, Marie Toegel, also known as Marie Togel and as Mary Togel, and Paula Arfsten, each of whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the property described as follows:

a. An undivided seven-eighteenths (7/18ths) interest in real property situated in the County of Los Angeles, State of California, particularly described in Exhibit A, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments, arising from the ownership of such property,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being

deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2-a hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on November 15, 1950.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.
